Part I — FINANCIAL INFORMATION

**Item 1. Financial Statements.**

The Condensed Consolidated Financial Statements of Owens-Illinois Group, Inc. ("the Company") presented herein are unaudited but, in the opinion of management, reflect all adjustments necessary to present fairly such information for the periods and at the dates indicated. All adjustments are of a normal recurring nature. Because the following unaudited condensed consolidated financial statements have been prepared in accordance with Article 10 of Regulation S-X, they do not contain all information and footnotes normally contained in annual consolidated financial statements; accordingly, they should be read in conjunction with the Consolidated Financial Statements and notes thereto appearing in the Registrant's Annual Report on Form 10-K for the year ended December 31, 2010.

On June 14, 2006, the Company's subsidiary borrowers entered into the Secured Credit Agreement (the "Agreement"). At March 31, 2011, the Agreement included a \$900 million revolving credit facility, a 90 million Australian dollar term loan, and a 111 million Canadian dollar term loan, each of which has a final maturity date of June 15, 2012. It also included a \$190 million term loan and a €190 million term loan, each of which has a final maturity date of June 14, 2013. At March 31, 2011, the Company's subsidiary borrowers had unused credit of \$728 million available under the Agreement.

The weighted average interest rate on borrowings outstanding under the Agreement at March 31, 2011 was 2.68%.

7

During October 2006, the Company entered into a €250 million European accounts receivable securitization program. The program extends through October 2011, subject to annual renewal of backup credit lines.

Information related to the Company's accounts receivable securitization programs is as follows:

|  | March 31,<br>2011 | December 31,<br>2010 | March 31,<br>2010 |
|--|-------------------|----------------------|-------------------|
| Balance (included in short-term loans) | \$ 222            | \$ 247               | \$ 229            |
| Weighted average interest rate         | 2.85%             | 2.40%                | 2.57%             |

The carrying amounts reported for the accounts receivable securitization programs, and certain long-term debt obligations subject to frequently redetermined interest rates, approximate fair value. Fair values for the Company's significant fixed rate debt obligations are generally based on published market quotations.

Fair values at March 31, 2011 of the Company's significant fixed rate debt obligations are as follows:

## 6. Contingencies

OI Inc. is a defendant in numerous lawsuits alleging bodily injury and death as a result of exposure to asbestos dust. From 1948 to 1958, one of OI Inc.'s former business units commercially produced and sold approximately \$40 million of a high-temperature, calcium-silicate based pipe and block insulation material containing asbestos. OI Inc. exited the pipe and block insulation business in April 1958. The typical asbestos personal injury lawsuit alleges various theories of liability, including negligence, gross negligence and strict liability and seek compensatory and in some cases, punitive damages in various amounts (herein referred to as "asbestos claims").

As of March 31, 2011, OI Inc. has determined that it is a named defendant in asbestos lawsuits and claims involving approximately 5,900 plaintiffs and claimants. Based on an analysis of the lawsuits pending as of December 31, 2010, approximately 76% of plaintiffs either do not specify the monetary damages sought, or in the case of court filings, claim an amount sufficient to invoke the jurisdictional minimum of the trial court. Approximately 22% of plaintiffs specifically plead damages of \$15 million or less, and 2% of plaintiffs specifically plead damages greater than \$15 million but less than \$100 million. Fewer than 1% of plaintiffs specifically plead damages \$100 million or greater but less than \$122 million.

As indicated by the foregoing summary, current pleading practice permits considerable variation in the assertion of monetary damages. OI Inc.'s experience resolving hundreds of thousands of asbestos claims and lawsuits over an extended period demonstrates that the monetary relief that may be alleged in a complaint bears little relevance to a claim's merits or disposition value. Rather, the amount potentially recoverable is determined by such factors as the severity of the plaintiff's asbestos disease, the product identification evidence against OI Inc. and other defendants, the defenses available to OI Inc. and other defendants, the specific jurisdiction in which the claim is made, and the plaintiff's medical history and exposure to other disease-causing agents.

In addition to the pending claims set forth above, OI Inc. has claims-handling agreements in place with many plaintiffs' counsel throughout the country. These agreements require evaluation and negotiation regarding whether particular claimants qualify under the criteria established by such agreements. The criteria for such claims include verification of a compensable illness and a reasonable probability of exposure to a product manufactured by OI Inc.'s former business unit during its manufacturing period ending in 1958. Some plaintiffs' counsel have historically withheld claims under these agreements for later presentation while focusing their attention on active litigation in the tort system. OI Inc. believes that as of March 31, 2011 there are approximately 550 claims against other defendants which are likely to be

asserted some time in the future against OI Inc. These claims are not included in the pending "lawsuits and claims" totals set forth above.

OI Inc. is also a defendant in other asbestos-related lawsuits or claims involving maritime workers, medical monitoring claimants, co-defendants and property damage claimants. Based upon its past experience, the OI Inc. believes that these categories of lawsuits and claims will not involve any material liability and they are not included in the above description of pending matters or in the following description of disposed matters.

Since receiving its first asbestos claim, OI Inc. as of March 31, 2011, has disposed of the asbestos claims of approximately 383,000 plaintiffs and claimants at an average indemnity payment per claim of approximately \$7,900. Certain of these dispositions have included deferred amounts payable over a number of years. Deferred amounts payable totaled approximately \$26 million at March 31, 2011 (\$26 million at December 31, 2010) and are included in the foregoing average indemnity payment per claim. OI Inc.'s asbestos indemnity payments have varied on a per claim basis, and are expected to continue to vary considerably over time. As discussed above, a part of OI Inc.'s objective is to achieve, where possible, resolution of asbestos claims pursuant to claims-handling agreements. Failure of claimants to meet certain medical and product exposure criteria in OI Inc.'s administrative claims handling agreements has generally reduced the number of marginal or suspect claims that would otherwise have been received. In addition, certain courts and legislatures have reduced or eliminated the number of marginal or suspect claims that OI Inc. otherwise would have received. These developments generally have had the effect of increasing the OI Inc.'s per-claim average indemnity payment.

OI Inc. believes that its ultimate asbestos-related liability (i.e., its indemnity payments or other claim disposition costs plus related legal fees) cannot reasonably be estimated. Beginning with the initial liability of \$975 million established in 1993, OI Inc. has accrued a total of approximately \$3.82 billion through 2010, before insurance recoveries, for its asbestos-related liability. OI Inc.'s ability to reasonably estimate its liability has been significantly affected by, among other factors, the volatility of asbestos-related litigation in the United States, the significant number of co-defendants that have filed for bankruptcy, the magnitude and timing of co-defendant bankruptcy trust payments, the inherent uncertainty of future disease incidence and claiming patterns, the expanding list of non-traditional defendants that have been sued in this litigation, and the use of mass litigation screenings to generate large numbers of claims by parties who allege exposure to asbestos dust but have no present physical asbestos impairment.

OI Inc. has continued to monitor trends that may affect its ultimate liability and has continued to analyze the developments and variables affecting or likely to affect the resolution of pending and future asbestos claims against OI Inc. The material components of OI Inc.'s accrued liability are based on amounts

determined by OI Inc. in connection with its annual comprehensive review and consist of the following estimates, to the extent it is probable that such liabilities have been incurred and can be reasonably estimated: (i) the liability for asbestos claims already asserted against OI Inc.; (ii) the liability for preexisting but unasserted asbestos claims for prior periods arising under its administrative claims-handling agreements with various plaintiffs' counsel; (iii) the liability for asbestos claims not yet asserted against OI Inc., but which OI Inc. believes will be asserted in the next several years; and (iv) the legal defense costs likely to be incurred in connection with the foregoing types of claims.

The significant assumptions underlying the material components of OI Inc.'s accrual are:

- a) the extent to which settlements are limited to claimants who were exposed to OI Inc.'s asbestos-containing insulation prior to its exit from that business in 1958;
- b) the extent to which claims are resolved under OI Inc.'s administrative claims agreements or on terms comparable to those set forth in those agreements;
- c) the extent of decrease or increase in the incidence of serious disease cases and claiming patterns for such cases;
- d) the extent to which OI Inc. is able to defend itself successfully at trial;
- e) the extent to which courts and legislatures eliminate, reduce or permit the diversion of financial resources for unimpaired claimants;
- f) the number and timing of additional co-defendant bankruptcies;
- g) the extent to which bankruptcy trusts direct resources to resolve claims that are also presented to OI Inc. and the timing of the payments made by the bankruptcy trusts; and
- h) the extent to which co-defendants with substantial resources and assets continue to participate significantly in the resolution of future asbestos lawsuits and claims.

As noted above, OI Inc. conducts a comprehensive review of its asbestos-related liabilities and costs annually in connection with finalizing and reporting its annual results of operations, unless significant changes in trends or new developments warrant an earlier review. If the results of an annual comprehensive review indicate that the existing amount of the accrued liability is insufficient to cover its estimated future asbestos-related costs, then OI Inc. will record an appropriate charge to increase the accrued liability. OI Inc. believes that a reasonable estimation of the probable amount of the liability for claims not yet asserted against OI Inc. is not possible beyond a period of several years. Therefore, while the results of future annual comprehensive reviews cannot be determined, OI Inc. expects the addition of one year to the estimation period will result in an annual charge.

On March 11, 2011, OI Inc. received a verdict in an asbestos case in which conspiracy claims had been asserted against OI Inc. Of the total nearly \$90 million awarded by the jury against the four defendants in the case, almost \$10 million in compensatory damages were assessed against all four defendants, and \$40 million in punitive damages were assessed against OI Inc.

OI Inc. continues to deny the conspiracy allegations in this case and will vigorously challenge this verdict, if necessary, in the appellate courts, and, therefore, has made no change to its asbestos-related liability as of March 31, 2011. While OI Inc. cannot predict the ultimate outcome of this lawsuit, OI Inc. and other conspiracy defendants have successfully challenged jury verdicts in similar cases.

Other litigation is pending against the Company, in many cases involving ordinary and routine claims incidental to the business of the Company and in others presenting allegations that are non-routine and involve compensatory, punitive or treble damage claims as well as other types of relief. The Company records a liability for such matters when it is both probable that the liability has been incurred and the amount of the liability can be reasonably estimated.

Recorded amounts are reviewed and adjusted to reflect changes in the factors upon which the estimates are based including additional information, negotiations, settlements, and other events.

The ultimate legal and financial liability of OI Inc. with respect to the lawsuits and proceedings referred to above, in addition to other pending litigation, cannot reasonably be estimated. OI Inc.'s reported results of operations for 2010 were materially affected by the \$170 million (pretax and after tax) fourth quarter charge for asbestos-related costs and asbestos-related payments continue to be substantial. Any future additional charge would likewise materially affect OI Inc.'s results of operations for the period in which it is recorded. Also, the continued use of significant amounts of cash for asbestos-related costs has affected and may continue to affect the Company's and OI Inc.'s cost of borrowing and its ability to pursue global or domestic acquisitions. However, the Company believes that its operating cash flows and other sources of liquidity will be sufficient to pay its obligations for asbestos-related costs and to fund its working capital and capital expenditure requirements on a short-term and long-term basis.

## 7. Segment Information

The Company has four reportable segments based on its four geographic locations: (1) Europe; (2) North America; (3) South America; (4) Asia Pacific. These four segments are aligned with the Company's internal approach to managing, reporting, and evaluating performance of its global glass operations. Certain assets and activities not directly related to one of the regions or to glass manufacturing are reported with Retained corporate costs and other. These include licensing, equipment manufacturing, global engineering, and non-glass equity investments. Retained corporate costs and other also includes certain headquarters administrative and facilities costs and certain incentive compensation and other benefit plan costs that are global in nature and are not allocable to the reportable segments.

The Company's measure of profit for its reportable segments is Segment Operating Profit, which consists of consolidated earnings from continuing operations before interest income, interest expense, and provision for income taxes and excludes amounts related to certain items that management considers not representative of ongoing operations as well as certain retained corporate costs. The Company's management uses Segment Operating Profit, in combination with net sales and selected cash flow information, to evaluate performance and to allocate resources. Segment Operating Profit for reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided.

Financial information for the three-month periods ended March 31, 2011 and 2010 regarding the Company's reportable segments is as follows:

## 8. Other Expense

Other expense for the three months ended March 31, 2011, includes charges totaling \$8 million for restructuring charges in the Company's Asia Pacific segment. See Note 9 for additional information.

## 9. Restructuring Accruals

Beginning in 2007, the Company commenced a strategic review of its global profitability and manufacturing footprint. The Company concluded its global review as of December 31, 2009, with the final actions implemented in the first half of 2010. The combined 2007, 2008, 2009 and 2010 charges, amounting to \$407 million (\$340 million after tax amount attributable to the Company), reflect the decisions reached by the Company in its strategic review of its global manufacturing footprint. The related curtailment of plant capacity and realignment of selected operations have resulted in an overall reduction in the Company's workforce of approximately 3,250 jobs. Amounts recorded by the Company do not include any gains that may be realized upon the ultimate sale or disposition of closed facilities.

14

Selected information related to the restructuring accrual for the strategic footprint review for the three months ended March 31, 2011 and 2010 is as follows:

|                            | Employee<br>Costs | Other | Total |
|----------------------------|-------------------|-------|-------|
| Balance at January 1, 2011 | \$ 27             | \$ 25 | \$ 52 |

| Balance at January 1, 2010                                | \$ 93        | \$ 26        | \$ 119       |
| Net cash paid, principally severance and related benefits | (18)         | (1)          | (19)         |
| Other, principally foreign exchange translation           | (1)          |              | (1)          |
| Balance at March 31, 2010                                 | <u>\$ 74</u> | <u>\$ 25</u> | <u>\$ 99</u> |

The Company continually reviews its manufacturing footprint and may close various operations due to plant efficiencies, integration of acquisitions, and other market factors. The restructuring accruals related to these types of actions taken by the Company not related to the strategic review of manufacturing operations discussed above are \$35 million as of March 31, 2011, \$27 million at December 31, 2010, and \$27 million at March 31, 2010. The Company recorded restructuring charges of \$8 million in the first quarter of 2011 for employee costs related to a plant closing and the related relocation of business to other facilities in its Asia Pacific segment. There were no other material charges or cash payments in 2011 or 2010 related to these actions.

The Company's decisions to curtail selected production capacity have resulted in write downs of certain long-lived assets to the extent their carrying amounts exceeded fair value or fair value less cost to sell. The Company classified the significant assumptions used to determine the fair value of the impaired assets, which was not material, as Level 3 in the fair value hierarchy as set forth in the general accounting principles for fair value measurements.

The Company also recorded liabilities for certain employee separation costs to be paid under contractual arrangements and other exit costs.

## 10. Derivative Instruments

The Company has certain derivative assets and liabilities which consist of interest rate swaps, natural gas forwards, and foreign exchange option and forward contracts. The Company uses an income approach to valuing these contracts. Interest rate yield curves, natural gas forward rates, and foreign exchange rates are the significant inputs into the valuation models. These inputs are observable in active markets over the terms of the instruments the Company holds, and accordingly, the Company classifies its derivative assets and liabilities as Level 2 in the hierarchy. The Company also evaluates counterparty risk in determining fair values.

### *Interest Rate Swaps Designated as Fair Value Hedges*

In the fourth quarter of 2003 and the first quarter of 2004, the Company entered into a series of interest rate swap agreements with a total notional amount of \$700 million that were to mature in 2010 and 2013. The swaps were executed in order to: (i) convert a portion of the senior notes and senior debentures fixed-rate debt into floating-rate debt; (ii) maintain a capital structure

containing appropriate amounts of fixed and floating-rate debt; and (iii) reduce net interest payments and expense in the near-term.

The Company's fixed-to-floating interest rate swaps were accounted for as fair value hedges. Because the relevant terms of the swap agreements matched the corresponding terms of the notes, there was no hedge ineffectiveness. Accordingly, the Company recorded the net of the fair market values of the swaps as a long-term asset (liability) along with a corresponding net increase (decrease) in the carrying value of the hedged debt.

For derivative instruments that are designated and qualify as fair value hedges, the change in the fair value of the derivative instrument related to the future cash flows (gain or loss on the derivative) as well as the offsetting change in the fair value of the hedged item attributable to the hedged risk are recognized in current earnings. The Company includes the gain or loss on the hedged items (i.e. long-term debt) in the same line item (interest expense) as the offsetting loss or gain on the related interest rate swaps.

During the second quarter of 2009, the Company extinguished \$222 million of its intercompany debt with OI Inc. and terminated the related interest rate swap agreements for proceeds of \$5 million. The Company recognized \$4 million of the proceeds as a reduction to interest expense upon the termination of the interest rate swap agreements, while the remaining proceeds were recognized as a reduction to interest expense over the remaining life of the outstanding intercompany debt, which matured in May 2010.

During the second quarter of 2009, the Company's interest rate swaps related to the \$450 million senior notes due 2013 were terminated. The Company received proceeds of \$12 million which were recorded as an adjustment to debt and were to be recognized as a reduction to interest expense over the remaining life of the senior notes due 2013. During the second quarter of 2010, a subsidiary of the Company redeemed the senior notes due 2013. Accordingly, the remaining unamortized proceeds from the terminated interest rate swaps were recognized in the second quarter as a reduction to interest expense.

The amortization of the proceeds from the terminated interest rate swaps reduced interest expense \$1 million for the three months ended March 31, 2010.

### *Commodity Futures Contracts Designated as Cash Flow Hedges*

In North America, the Company enters into commodity futures contracts related to forecasted natural gas requirements, the objectives of which are to limit the effects of fluctuations in the future market price paid for natural gas and the related volatility in cash flows. The Company continually evaluates the natural gas market and related price risk and periodically enters into commodity futures contracts in order to hedge a portion of its usage requirements. The majority of the sales volume in North America is tied to customer contracts that contain provisions that pass the price of natural gas to the customer. In certain of these contracts, the customer has the option of fixing the natural gas price component for a specified period of time. At March 31, 2011 and 2010, the Company had entered into commodity futures contracts covering approximately 8,000,000 MM BTUs and 5,200,000 MM BTUs, respectively, primarily related to customer requests to lock the price of natural gas.

The Company accounts for the above futures contracts as cash flow hedges at March 31, 2011 and recognizes them on the balance sheet at fair value. The effective portion of changes in the fair value of a derivative that is designated as, and meets the required criteria for, a cash flow hedge is recorded in the

Accumulated Other Comprehensive Income component of share owners' equity ("OCI") and reclassified into earnings in the same period or periods during which the underlying hedged item affects earnings. At March 31, 2011 and 2010, an unrecognized loss of \$2 million and \$7 million, respectively, related to the commodity futures contracts was

16

included in Accumulated OCI, and will be reclassified into earnings over the next twelve to twenty-four months. Any material portion of the change in the fair value of a derivative designated as a cash flow hedge that is deemed to be ineffective is recognized in current earnings. The ineffectiveness related to these natural gas hedges for the three months ended March 31, 2011 and 2010 was not material.

The effect of the commodity futures contracts on the results of operations for the three months ended March 31, 2011 and 2010 is as follows:

| Amount of Loss Recognized in OCI on Commodity Futures Contracts (Effective Portion) |        | Amount of Loss Reclassified from Accumulated OCI into Income (reported in manufacturing, shipping, and delivery) (Effective Portion) |        |
|---|--------|--|--------|
| 2011  | 2010   | 2011   | 2010   |
| \$ (1)  | \$ (7) | \$ (2)   | \$ (1) |

#### Senior Notes Designated as Net Investment Hedge

During December 2004, a U.S. subsidiary of the Company issued senior notes totaling €225 million. These notes were designated by the Company's subsidiary as a hedge of a portion of its net investment in a non-U.S. subsidiary with a Euro functional currency. Because the amount of the senior notes matches the hedged portion of the net investment, there is no hedge ineffectiveness. Accordingly, the Company recorded the impact of changes in the foreign currency exchange rate on the Euro-denominated notes in OCI. The amount recorded in OCI will be reclassified into earnings when the Company sells or liquidates its net investment in the non-U.S. subsidiary.

The effect of the net investment hedge on the results of operations for the three months ended March 31, 2011 and 2010 is as follows:

| Amount of Gain (Loss) Recognized in OCI |       | Location of Gain (Loss) Reclassified from Accumulated OCI into Income | Amount of Gain (Loss) Reclassified from Accumulated OCI into Income |      |
|---|-------|---|---|------|
| 2011                                    | 2010  |   | 2011  | 2010 |
| \$ (18)                                 | \$ 24 | N/A   | \$ —  | \$ — |

#### Forward Exchange Contracts not Designated as Hedging Instruments

The Company's subsidiaries may enter into short-term forward exchange or option agreements to purchase foreign currencies at set rates in the future. These agreements may be used to offset the foreign currency risk for receivables and payables, including intercompany receivables and payables, not denominated in, or indexed to, their functional currencies. Subsidiaries may also use forward exchange agreements to limit exposure to fluctuations in foreign currency exchange rates for significant planned purchases of fixed assets or commodities that are denominated in currencies other than the subsidiaries' functional currency. The Company records

17

these short-term forward exchange agreements on the balance sheet at fair value and changes in the fair value are recognized in current earnings.

At March 31, 2011 and 2010, various subsidiaries of the Company had outstanding forward exchange and option agreements denominated in various currencies covering the equivalent of approximately \$881 million and \$590 million, respectively, related primarily to intercompany transactions and loans.

The effect of the forward exchange contracts on the results of operations for the three months ended March 31, 2011 and 2010 is as follows:

| Location of Gain (Loss) Recognized in Income on Forward Exchange Contracts | Amount of Gain (Loss) Recognized in Income on Forward Exchange Contracts |       |
|--|--|-------|
|  | 2011   | 2010  |
| Other expense  | \$ (7)   | \$ 23 |

#### Balance Sheet Classification

The Company records the fair values of derivative financial instruments on the balance sheet as follows: (a) receivables if the instrument has a positive fair value and maturity within one year, (b) deposits, receivables, and other assets if the instrument has a positive fair value and maturity after one year, (c) other accrued liabilities or other liabilities (current) if the instrument has a negative fair value and maturity within one year, and (d) other liabilities if the instrument has a negative fair value and maturity after one year. The following table shows the amount and classification (as noted above) of the Company's derivatives:

| Balance Sheet Location | Fair Value |              |           |
|------------------------|------------|--------------|-----------|
|                        | March 31,  | December 31, | March 31, |

## 12. Discontinued Operations

On October 26, 2010, the Venezuelan government, through Presidential Decree No. 7.751, expropriated the assets of Owens-Illinois de Venezuela and Fabrica de Vidrios Los Andes, C.A., two of the Company's subsidiaries in that country, which in effect constituted a taking of the going concerns of those companies. Shortly after the issuance of the decree, the Venezuelan government installed temporary administrative boards to control the expropriated assets.

Since the issuance of the decree, the Company has cooperated with the Venezuelan government, as it is compelled to do under Venezuelan law, to provide for an orderly transition while ensuring the safety and well-being of the employees and the integrity of the production facilities. The Company is also engaged in negotiations with the Venezuelan government in relation to certain aspects of the expropriation, including the compensation payable by the government as a result of its expropriation. The Company reserves and will continue to reserve the right to seek and obtain just compensation, representing the market value of its investment in Venezuela, in exchange for the expropriated assets pursuant to, as appropriate, applicable

20

domestic and/or international law. The Company is unable at this stage to predict the amount, or timing of receipt, of compensation it will ultimately receive.

The Company considered the disposal of these assets to be complete as of December 31, 2010. As a result, and in accordance with generally accepted accounting principles, the Company has presented the results of operations for its Venezuelan subsidiaries in the Consolidated Results of Operations for the three months ended March 31, 2010 as discontinued operations. At March 31, 2010, the assets and liabilities of the Venezuelan operations are presented in the Consolidated Balance Sheets as the assets and liabilities of discontinued operations.

The following summarizes the revenues and expenses of the Venezuelan operations reported as discontinued operations in the Consolidated Results of Operations for the three months ended March 31, 2010:

|   |             |
|---|-------------|
| Net sales   | \$ 36       |
| Manufacturing, shipping, and delivery                     | (25)        |
| Gross profit  | <u>11</u>   |
| Selling and administrative expense                        | (1)         |
| Other expense   | (5)         |
| Earnings from discontinued operations before income taxes | 5           |
| Provision for income taxes                                | (2)         |
| Net earnings from discontinued operations                 | <u>\$ 3</u> |

The loss from discontinued operations of \$1 million for the three months ended March 31, 2011 consisted primarily of legal fees related to the ongoing negotiations with the Venezuelan government.

The net assets of the Company's Venezuelan operations were written-off as of December 31, 2010 as a result of the deconsolidation of the subsidiaries due to the loss of control. The type or amount of compensation the Company may receive from the Venezuelan government is uncertain and thus, will be recorded as a gain from discontinued operations when received. The cumulative currency translation losses relate to the devaluation of the Venezuelan bolivar in prior years and were written-off because the expropriation was a substantially complete liquidation of the Company's operations in Venezuela.

The condensed consolidated balance sheet at March 31, 2010 included the following assets and liabilities related to the discontinued operations of the Company's Venezuelan subsidiaries:

|  |              |

### 13. Financial Information for Subsidiary Guarantors and Non-Guarantors

The following presents condensed consolidating financial information for the Company, segregating: (1) Owens-Illinois Group, Inc. (the "Parent"); (2) Owens-Brockway Glass Container Inc. (the "Issuer"); (3) those domestic subsidiaries that guarantee the 6.75% senior notes, 6.75% Euro senior notes, 3.00% exchangeable notes and 7.375% senior notes of the Issuer (the "Guarantor Subsidiaries"); and (4) all other subsidiaries (the "Non-Guarantor Subsidiaries"). The Guarantor Subsidiaries are 100% owned direct and indirect subsidiaries of the Parent and their guarantees are full, unconditional and joint and several. The Parent is also a guarantor, and its guarantee is full, unconditional and joint and several.

100% owned subsidiaries of the Parent and of the Issuer are presented on the equity basis of accounting. Certain reclassifications have been made to conform all of the financial information to the financial presentation on a consolidated basis. The principal eliminations relate to investments in subsidiaries and intercompany balances and transactions.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Following are the Company's net sales by segment and Segment Operating Profit for the three months ended March 31, 2011 and 2010 (dollars in millions). The Company's measure of profit for its reportable segments is Segment Operating Profit, which consists of consolidated earnings from continuing operations before interest income, interest expense, and provision for income taxes and excludes amounts related to certain items that management considers not representative of ongoing operations as well as certain retained corporate costs. The segment data presented below is prepared in accordance with general accounting principles for segment reporting. The line titled 'reportable segment totals', however, is a non-GAAP measure when presented outside of the financial statement footnotes. Management has included 'reportable segment totals' below to facilitate the discussion and analysis of financial condition and results of operations. The Company's management uses Segment Operating Profit, in combination with net sales and selected cash flow information, to evaluate performance and to allocate resources.

Note: All amounts excluded from reportable segment totals are discussed in the following applicable sections.

### Executive Overview — Quarters ended March 31, 2011 and 2010

#### First Quarter 2011 Highlights

- 7% improvement in shipment levels drove increase in net sales
- Improved Segment Operating Profit despite elevated cost inflation

Net sales were \$173 million higher than the prior year, primarily due to higher sales volumes driven by recent acquisitions and the favorable effect of changes in foreign currency exchange rates.

Segment Operating Profit for reportable segments was \$6 million higher than the prior year. The increase was mainly attributable to higher shipment and production levels, partially offset by elevated cost inflation and the impact of flooding in Australia.

Interest expense for the first quarter of 2011 increased \$20 million compared with the first quarter of 2010. The increase is principally due to additional debt issued in 2010 to fund acquisitions.

Net earnings from continuing operations attributable to the Company for the first quarter of 2011 was \$73 million compared with \$82 million for the first quarter of 2010.

### Results of Operations — First Quarter of 2011 compared with First Quarter of 2010

#### Net Sales

The Company's net sales in the first quarter of 2011 were \$1,719 million compared with \$1,546 million for the first quarter of 2010, an increase of \$173 million, or 11%. For further information, see Segment Information included in Note 7 to the Condensed Consolidated Financial Statements.

The increase in net sales was primarily due to higher glass container shipments and the favorable effects of changes in foreign currency exchange rates. Glass container shipments, in tonnes, were up 7% in the first quarter of 2011 compared to the first quarter of 2010. Sales volumes were up in all regions and end-use categories, with the acquisitions in Argentina, Brazil and China in 2010 representing more than 5% of the 7% volume growth. The remaining increase in volume was due to improving economic conditions. Foreign currency exchange rate changes increased net sales in the first quarter of 2011 compared to the prior year, primarily due to a stronger Euro, Australian dollar and Brazilian real in relation to the U.S. dollar.

The change in net sales of reportable segments can be summarized as follows (dollars in millions):

|  |           |                 |
|--|-----------|-----------------|
| Net sales - 2010                           |           | \$ 1,537        |
| Net effect of price and mix                | \$ 1      |                 |
| Sales volume                               | 95        |                 |
| Effects of changing foreign currency rates | <u>59</u> |                 |
| Total effect on net sales                  |           | <u>155</u>      |
| Net sales - 2011                           |           | <u>\$ 1,692</u> |

#### Segment Operating Profit

Operating Profit of the reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided. Unallocated corporate expenses and certain other expenses not directly related to the reportable segments' operations are included in Retained corporate costs and other. For further information, see Segment Information included in Note 7 to the Condensed Consolidated Financial Statements.

Segment Operating Profit of reportable segments in the first quarter of 2011 was \$199 million compared to \$193 million for the first quarter of 2010, an increase of \$6 million, or 3%. The increase in Segment Operating Profit was primarily due to the higher sales volume in 2011 and the favorable effects of changes in foreign currency exchange rates. Offsetting these increases were higher manufacturing and delivery costs and operating expenses. Manufacturing and delivery costs increased principally due to \$49 million of cost inflation and \$9 million of costs related to flooding in Australia, partially offset by \$52 million primarily from improved capacity utilization and footprint realignment efforts completed in 2010. The cost inflation in the first quarter of 2011 was driven by higher raw material and energy prices. The higher raw material prices were mainly due to the increased cost of soda ash in all regions. The energy inflation was primarily due to higher natural gas prices in Europe. The higher natural gas prices did not fully impact the first quarter due to the Company's existing energy contracts, but will likely result in higher energy costs for the remainder of 2011. Operating expenses were higher as the

Company invested in building its sales and marketing capabilities and also incurred expenses related to the phased implementation of a global Enterprise Resource Planning software system.

The change in Segment Operating Profit of reportable segments can be summarized as follows (dollars in millions):

|  |    |      |            |
|--|----|------|------------|
| Segment Operating Profit - 2010              |    | \$   | 193        |

| Segment Operating Profit - 2011              |    | \$   | <u>199</u> |

#### *Interest Expense*

Interest expense for the first quarter of 2011 was \$76 million compared with \$56 million for the first quarter of 2010. The increase is principally due to additional debt issued in 2010 to fund acquisitions.

#### *Provision for Income Taxes*

The Company's effective tax rate from continuing operations for the three months ended March 31, 2011 was 26.7% compared with 26.0% for the first three months of 2010. The Company expects that the full year effective tax rate for 2011, excluding the amounts related to items that management considers not representative of ongoing operations, will approximate the 26.2% effective tax rate for 2010.

#### *Net Earnings Attributable to Noncontrolling Interests*

Net earnings attributable to noncontrolling interests in the first quarter of 2011 were \$4 million compared with \$9 million in the first quarter of 2010. The decrease was primarily a result of lower earnings in the Company's less than wholly-owned subsidiaries in its South America and Asia Pacific segments in the first quarter of 2011.

#### *Earnings from Continuing Operations Attributable to the Company*

For the first quarter of 2011, the Company recorded earnings from continuing operations attributable to the Company of \$73 million compared to \$82 million in the first quarter of 2010. Earnings in the first quarter of 2011 included items that management considered not representative of ongoing operations. These items decreased earnings from continuing operations attributable to the Company in 2011 by \$6 million.

#### **Items Excluded from Reportable Segment Totals**

##### *Retained Corporate Costs and Other*

Retained corporate costs and other for the first quarter of 2011 was \$13 million compared with \$18 million for the first quarter of 2010. The decreased expense was mainly attributable to

higher earnings from the Company's global equipment sales business and a reduction of management incentive compensation expense, partially offset by higher pension expense.

##### *Restructuring*

During the three months ended March 31, 2011, the Company recorded restructuring charges totaling \$8 million for employee costs related to a plant closing and the related relocation of business to other facilities in the Company's Asia Pacific segment. This plant is located in the central business district of a large city, where property values have increased considerably. The Company is currently in the process of selling the related property.

##### *Discontinued Operations*

On October 26, 2010, the Venezuelan government, through Presidential Decree No. 7.751, expropriated the assets of Owens-Illinois de Venezuela and Fabrica de Vidrios Los Andes, C.A., two of the Company's subsidiaries in that country, which in effect constituted a taking of the going concerns of those companies.

Shortly after the issuance of the decree, the Venezuelan government installed temporary administrative boards to control the expropriated assets.

Since the issuance of the decree, the Company has cooperated with the Venezuelan government, as it is compelled to do under Venezuelan law, to provide for an orderly transition while ensuring the safety and well-being of the employees and the integrity of the production facilities. The Company is also engaged in negotiations with the Venezuelan government in relation to certain aspects of the expropriation, including the compensation payable by the government as a result of its expropriation. The Company reserves and will continue to reserve the right to seek and obtain just compensation, representing the market value of its investment in Venezuela, in exchange for the expropriated assets pursuant to, as appropriate, applicable domestic and/or international law. The Company is unable at this stage to predict the amount, or timing of receipt, of compensation it will ultimately receive.

The Company considered the disposal of these assets to be complete as of December 31, 2010. As a result, and in accordance with generally accepted accounting principles, the Company has presented the results of operations for its Venezuelan subsidiaries in the Consolidated Results of Operations for the three months ended March 31, 2010 as discontinued operations. At March 31, 2010, the assets and liabilities of the Venezuelan operations are presented in the Consolidated Balance Sheets as the assets and liabilities of discontinued operations.

The following summarizes the revenues and expenses of the Venezuelan operations reported as discontinued operations in the Consolidated Results of Operations for the three months ended March 31, 2010:

34

|   |    |                 |
|---|----|-----------------|
| Net sales   | \$ | 36              |
| Manufacturing, shipping, and delivery                     |    | (25)            |
| Gross profit  |    | <u>11</u>       |
| Selling and administrative expense                        |    | (1)             |
| Other expense   |    | <u>(5)</u>      |
| Earnings from discontinued operations before income taxes |    | 5               |
| Provision for income taxes                                |    | (2)             |
| Net earnings from discontinued operations                 | \$ | <u><u>3</u></u> |

The loss from discontinued operations of \$1 million for the three months ended March 31, 2011 consisted primarily of legal fees related to the ongoing negotiations with the Venezuelan government.

The net assets of the Company's Venezuelan operations were written-off as of December 31, 2010 as a result of the deconsolidation of the subsidiaries due to the loss of control. The type or amount of compensation the Company may receive from the Venezuelan government is uncertain and thus, will be recorded as a gain from discontinued operations when received. The cumulative currency translation losses relate to the devaluation of the Venezuelan bolivar in prior years and were written-off because the expropriation was a substantially complete liquidation of the Company's operations in Venezuela.

The condensed consolidated balance sheet at March 31, 2010 included the following assets and liabilities related to the discontinued operations of the Company's Venezuelan subsidiaries:

|  |    |                  |

### Capital Resources and Liquidity

As of March 31, 2011, the Company had cash and total debt of \$430 million and \$4.4 billion, respectively, compared to \$496 million and \$3.5 billion, respectively, as of March 31, 2010.

35

### Current and Long-Term Debt

On June 14, 2006, the Company's subsidiary borrowers entered into the Secured Credit Agreement (the "Agreement"). At March 31, 2011, the Agreement included a \$900 million revolving credit facility, a 90 million Australian dollar term loan, and a 111 million Canadian dollar term loan, each of which has a

final maturity date of June 15, 2012. It also included a \$190 million term loan and a €190 million term loan, each of which has a final maturity date of June 14, 2013. At March 31, 2011, the Company's subsidiary borrowers had unused credit of \$728 million available under the Agreement. The weighted average interest rate on borrowings outstanding under the Agreement at March 31, 2011 was 2.68%. Given current credit markets, the Company is in discussions with its bank group regarding refinancing options of the Agreement in the second quarter of 2011.

The Company assesses its capital raising and refinancing needs on an ongoing basis and may enter into additional credit facilities and seek to issue equity and/or debt securities in the domestic and international capital markets if market conditions are favorable.

During October 2006, the Company entered into a €250 million European accounts receivable securitization program. The program extends through October 2011, subject to annual renewal of backup credit lines.

Information related to the Company's accounts receivable securitization programs is as follows:

|  | <u>March 31,</u><br><u>2011</u> | <u>December 31,</u><br><u>2010</u> | <u>March 31,</u><br><u>2010</u> |
|--|---------------------------------|------------------------------------|---------------------------------|
| Balance (included in short-term loans) | \$ 222                          | \$ 247                             | \$ 229                          |
| Weighted average interest rate         | 2.85%                           | 2.40%                              | 2.57%                           |

#### Cash Flows

Free cash flow was \$(125) million for the first quarter of 2011 compared to \$(46) million for the first quarter of 2010. The Company defines free cash flow as cash provided by continuing operating activities less additions to property, plant, and equipment from continuing operations. Free cash flow does not conform to U.S. GAAP and should not be construed as an alternative to the cash flow measures reported in accordance with U.S. GAAP. The Company uses free cash flow for internal reporting, forecasting and budgeting and believes this information allows the board of directors, management, investors and analysts to better understand the Company's financial performance. Free cash flow for the three months ended March 31, 2011 and 2010 is calculated as follows:

36

|  | <u>2011</u>     | <u>2010</u>    |
|--|-----------------|----------------|
| Cash provided by (utilized in) continuing operating activities | \$ (52)         | \$ 50          |
| Additions to property, plant, and equipment - continuing       | (73)            | (96)           |
| Free cash flow   | <u>\$ (125)</u> | <u>\$ (46)</u> |

*Operating activities:* Cash utilized in continuing operating activities was \$52 million for the three months ended March 31, 2011, compared with cash provided by continuing operating activities of \$50 million for the three months ended March 31, 2010. The decrease in cash flows from continuing operating activities was primarily due to an increase in working capital of \$239 million in 2011 compared to \$144 million in 2010. The larger increase in working capital during 2011 was mainly due to an increase in inventory in the first quarter of 2011 as the Company built inventory levels in anticipation of more sales growth in the current year. Working capital also increased in the first quarter of 2011 due to higher accounts receivable as a result of the increase in net sales over the prior year. The decrease in cash flows from continuing operating activities was also due to increased interest payments of \$22 million as a result of higher debt balances and a decrease in dividends received from equity investments of \$13 million, partially offset by a decrease in cash paid for restructuring activities of \$15 million.

*Investing activities:* Cash utilized in investing activities was \$67 million for the three months ended March 31, 2011 compared to \$122 million for the three months ended March 31, 2010. Capital spending for property, plant and equipment during the three months ended March 31, 2011 was \$73 million compared with \$96 million in the prior year. The first quarter of 2010 also included \$26 million of cash paid to acquire a glass manufacturing plant in Argentina. During the first quarter of 2011, the Company received \$6 million as it settled the working capital adjustment provision related to the 2010 acquisition in Brazil.

*Financing activities:* Cash utilized in financing activities was \$98 million for the three months ended March 31, 2011, compared to \$224 for the three months ended March 31, 2010. The decrease in cash utilized in financing activities was due to \$144 million paid to OI Inc. in the first quarter of 2010 to repurchase shares of OI Inc. common stock.

The Company anticipates that cash flows from its operations and from utilization of credit available under the Agreement will be sufficient to fund its operating and seasonal working capital needs, debt service and other obligations on a short-term (twelve-months) and long-term basis. Based on the Company's expectations regarding future payments for lawsuits and claims and also based on the Company's expected operating cash flow, the Company believes that the payment of any deferred amounts of previously settled or otherwise determined lawsuits and claims, and the resolution of presently pending and anticipated future lawsuits and claims associated with asbestos, will not have a material adverse effect upon the Company's liquidity on a short-term or long-term basis.

#### Critical Accounting Estimates

The Company's analysis and discussion of its financial condition and results of operations are based upon its consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates

37

and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. The Company evaluates these estimates and assumptions on an ongoing basis. Estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances at the time the financial statements are issued. The results of these estimates may form the basis of the carrying value of certain assets and liabilities and may not be readily apparent from other sources. Actual results, under conditions and circumstances different from those assumed, may differ from estimates.

The impact of, and any associated risks related to, estimates and assumptions are discussed within Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as in the Notes to the Condensed Consolidated Financial Statements, if applicable, where estimates and assumptions affect the Company's reported and expected financial results.

There have been no material changes in critical accounting estimates at March 31, 2011 from those described in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

### **Forward Looking Statements**

This document contains "forward looking" statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. Forward looking statements reflect the Company's current expectations and projections about future events at the time, and thus involve uncertainty and risk. The words "believe," "expect," "anticipate," "will," "could," "would," "should," "may," "plan," "estimate," "intend," "predict," "potential," "continue," and the negatives of these words and other similar expressions generally identify forward looking statements. It is possible the Company's future financial performance may differ from expectations due to a variety of factors including, but not limited to the following: (1) foreign currency fluctuations relative to the U.S. dollar, (2) changes in capital availability or cost, including interest rate fluctuations, (3) the general political, economic and competitive conditions in markets and countries where the Company has operations, including uncertainties related to the expropriation of the Company's operations in Venezuela, disruptions in capital markets, disruptions in the supply chain, competitive pricing pressures, inflation or deflation, and changes in tax rates and laws, (4) consumer preferences for alternative forms of packaging, (5) fluctuations in raw material and labor costs, (6) availability of raw materials, (7) costs and availability of energy, including natural gas prices, (8) transportation costs, (9) the ability of the Company to raise selling prices commensurate with energy and other cost increases, (10) consolidation among competitors and customers, (11) the ability of the Company to acquire businesses and expand plants, integrate operations of acquired businesses and achieve expected synergies, (12) unanticipated expenditures with respect to environmental, safety and health laws, (13) the performance by customers of their obligations under purchase agreements, (14) the Company's ability to further develop its sales, marketing and product development capabilities, and (15) the timing and occurrence of events which are beyond the control of the Company, including any expropriation of the Company's operations, floods and other natural disasters, and events related to asbestos-related claims. It is not possible to foresee or identify all such factors. Any forward looking statements in this document are based on certain assumptions and analyses made by the Company in light of its experience and perception of historical trends, current conditions, expected future developments, and other factors it believes are appropriate in the circumstances. Forward looking statements are not a guarantee of future performance and actual results or developments may differ materially from expectations. While the Company continually reviews trends and uncertainties affecting the Company's results of operations and financial condition, the Company does not assume any obligation to update or supplement any particular forward looking statements contained in this document.

### **Item 3. Quantitative and Qualitative Disclosure About Market Risk.**

There have been no material changes in market risk at March 31, 2011 from those described in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

### **Item 4. Controls and Procedures.**

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, the Company has investments in certain unconsolidated entities. As the Company does not control or manage these entities, its disclosure controls and procedures with respect to such entities are necessarily substantially more limited than those maintained with respect to its consolidated subsidiaries.

As required by Rule 13a-15(b) of the Exchange Act, the Company carried out an evaluation, under the supervision and with the participation of management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of March 31, 2011.

Management concluded that the Company's system of internal control over financial reporting was effective as of December 31, 2010. As required by Rule 13a-15(d) of the Exchange Act, the Company carried out an evaluation, under the supervision and with the participation of management, including its Chief Executive Officer and Chief Financial Officer, of any change in the Company's internal controls over financial reporting that have materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting. There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting. The Company is undertaking the phased implementation of a global Enterprise Resource Planning software system and believes it is maintaining and monitoring appropriate internal controls during the implementation period. The Company believes that its internal control environment will be enhanced as a result of this implementation.
