**43551**

(Zip Code)

Registrant's telephone number, including area code: **(567) 336-5000**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer       Accelerated filer       Non-accelerated filer       Smaller reporting company   
(Do not check if a  
smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The number of shares of common stock, par value \$.01, of Owens-Illinois, Inc. outstanding as of September 30, 2016 was 162,196,998.

**Item 1. Financial Statements.**

The Condensed Consolidated Financial Statements of Owens-Illinois, Inc. (the “Company”) presented herein are unaudited but, in the opinion of management, reflect all adjustments necessary to present fairly such information for the periods and at the dates indicated. All adjustments are of a normal recurring nature. Because the following unaudited condensed consolidated financial statements have been prepared in accordance with Article 10 of Regulation S-X, they do not contain all information and footnotes normally contained in annual consolidated financial statements; accordingly, they should be read in conjunction with the Consolidated Financial Statements and notes thereto appearing in the Company’s Amendment No. 1 to the Annual Report on Form 10-K/A for the year ended December 31, 2015.

**1. Segment Information**

The Company has four reportable segments based on its geographic locations: Europe, North America, Latin America and Asia Pacific. These four segments are aligned with the Company’s internal approach to managing, reporting, and evaluating performance of its global glass operations. Certain assets and activities not directly related to one of the regions or to glass manufacturing are reported with Retained corporate costs and other. These include licensing, equipment manufacturing, global engineering, and certain equity investments. Retained corporate costs and other also includes certain headquarters administrative and facilities costs and certain incentive compensation and other benefit plan costs that are global in nature and are not allocable to the reportable segments.

The Company’s measure of profit for its reportable segments is segment operating profit, which consists of consolidated earnings from continuing operations before interest income, interest expense, and provision for income taxes and excludes amounts related to certain items that management considers not representative of ongoing operations as well as certain retained corporate costs. The Company’s management uses segment operating profit, in combination with selected cash flow information, to evaluate performance and to allocate resources. Segment operating profit for reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided.

Financial information for the three and nine months ended September 30, 2016 and 2015 regarding the Company’s reportable segments is as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
Net sales:				
Europe	\$ 586	\$ 605	\$ 1,795	\$ 1,809
North America	578	520	1,709	1,520
Latin America	365	265	1,022	677
Asia Pacific	170	162	487	478
Reportable segment totals	1,699	1,552	5,013	4,484
Other	13	14	47	46
Net sales	<u>\$ 1,712</u>	<u>\$ 1,566</u>	<u>\$ 5,060</u>	<u>\$ 4,530</u>

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
Segment operating profit:				
Europe	\$ 64	\$ 68	\$ 192	\$ 181
North America	79	61	247	214
Latin America	74	51	194	108
Asia Pacific	20	19	48	51
Reportable segment totals	237	199	681	554
Items excluded from segment operating profit:				
Retained corporate costs and other	(18)	(10)	(75)	(49)
Restructuring, asset impairment and other		(41)	(12)	(68)
Strategic transaction costs		(13)		(19)
Acquisition-related fair value inventory adjustments		(10)		(10)
Interest expense, net	(66)	(67)	(199)	(188)
Earnings from continuing operations before income taxes	\$ 153	\$ 58	\$ 395	\$ 220

Financial information regarding the Company's total assets is as follows:

	September 30, 2016	December 31, 2015	September 30, 2015
Total assets:			
Europe	\$ 2,972	\$ 2,902	\$ 3,030
North America	2,536	2,500	2,028
Latin America	2,629	2,807	3,297
Asia Pacific	1,025	917	894
Reportable segment totals	9,162	9,126	9,249
Other	335	295	305
Consolidated totals	\$ 9,497	\$ 9,421	\$ 9,554

## 2. Inventories

Major classes of inventory at September 30, 2016, December 31, 2015 and September 30, 2015 are as follows:

	September 30, 2016	December 31, 2015	September 30, 2015
Finished goods	\$ 892	\$ 858	\$ 873
Raw materials	127	113	114
Operating supplies	38	36	36
	\$ 1,057	\$ 1,007	\$ 1,023

### 3. Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets at September 30, 2016, December 31, 2015 and September 30, 2015 are as follows:

	September 30, 2016	December 31, 2015	September 30, 2015
Prepaid expenses	\$ 61	\$ 52	\$ 50
Value added taxes	42	195	224
Other	131	119	168
	<u>\$ 234</u>	<u>\$ 366</u>	<u>\$ 442</u>

In conjunction with the Vitro Acquisition in September of 2015, part of the total consideration paid by the Company included a value added tax receivable, which is included above as of December 31, 2015 and September 30, 2015. In the third quarter of 2016, approximately \$127 million of this receivable was collected by the Company. The remaining \$6 million of this receivable is expected to be refunded to the Company within the next twelve months.

### 4. Derivative Instruments

The Company has certain derivative assets and liabilities which consist of natural gas forwards and foreign exchange option and forward contracts. The Company uses an income approach to value these contracts. Natural gas forward rates and foreign exchange rates are the significant inputs into the valuation models. These inputs are observable in active markets over the terms of the instruments the Company holds, and accordingly, the Company classifies its derivative assets and liabilities as Level 2 in the hierarchy. The Company also evaluates counterparty risk in determining fair values.

#### *Commodity Forward Contracts Designated as Cash Flow Hedges*

In several regions, the Company enters into commodity forward contracts related to forecasted natural gas requirements, the objectives of which are to limit the effects of fluctuations in the future market price paid for natural gas and the related volatility in cash flows. In North America, the majority of its customer contracts contain provisions that pass the price of natural gas to its customers. In certain of these contracts, the customer has the option of fixing the natural gas price component for a specified period of time. To limit the effects of fluctuations in cash flows resulting from these customer contracts, the Company enters into commodity forward contracts related to forecasted natural gas requirements. In Asia Pacific, the Company implemented a hedging program in the first quarter of 2016, which included the execution of commodity forward contracts for certain contracted natural gas requirements. At September 30, 2016 and 2015, the Company had entered into commodity forward contracts covering approximately 12,400,000 MM BTUs and 6,300,000 MM BTUs, respectively.

The Company accounts for the above forward contracts as cash flow hedges at September 30, 2016 and recognizes them on the balance sheet at fair value. The effective portion of changes in the fair value of a derivative that is designated as, and meets the required criteria for, a cash flow hedge is recorded in the Accumulated Other Comprehensive Income component of share owners' equity ("OCI") and reclassified into earnings in the same period or periods during which the underlying hedged item affects earnings. An unrecognized gain of \$2 million at September 30, 2016, an unrecognized loss of \$4 million at December 31, 2015 and an unrecognized gain of \$2 million at September 30 2015, respectively, related to the commodity forward contracts was included in Accumulated OCI, and will be reclassified into earnings in the period when the commodity forward contracts expire. Any material portion of the change in the fair value of a derivative designated as a cash flow hedge that is deemed to be ineffective is recognized in current earnings. The ineffectiveness related to these natural gas hedges for the three and nine months ended September 30, 2016 and 2015 was not material.

The effect of the commodity forward contracts on the results of operations for the three months ended September 30, 2016 and 2015 is as follows:

Amount of Gain (Loss) Recognized in OCI on Commodity Forward Contracts (Effective Portion)		Amount of Gain Reclassified from Accumulated OCI into Income (reported in cost of goods sold) (Effective Portion)	
2016	2015	2016	2015
\$ (1)	\$ 2	\$ —	\$ 4

The effect of the commodity forward contracts on the results of operations for the nine months ended September 30, 2016 and 2015 is as follows:

Amount of Gain Recognized in OCI on Commodity Forward Contracts (Effective Portion)		Amount of Gain Reclassified from Accumulated OCI into Income (reported in cost of goods sold) (Effective Portion)	
2016	2015	2016	2015
\$ 2	\$ 2	\$ —	\$ 6

*Foreign Exchange Derivative Contracts and not Designated as Hedging Instruments*

The Company may enter into short-term forward exchange or option agreements to purchase foreign currencies at set rates in the future. These agreements are used to limit exposure to fluctuations in foreign currency exchange rates for significant planned purchases of fixed assets or commodities that are denominated in currencies other than the subsidiaries' functional currency. The Company may also use foreign exchange agreements to offset the foreign currency risk for receivables and payables, including intercompany receivables, payables, and loans, not denominated in, or indexed to, their functional currencies. The Company records these short-term foreign exchange agreements on the balance sheet at fair value and changes in the fair value are recognized in current earnings.

At September 30, 2016 and 2015, the Company had outstanding foreign exchange and option agreements denominated in various currencies covering the equivalent of approximately \$580 million and \$600 million, respectively, related primarily to intercompany transactions and loans.

The effect of the foreign exchange derivative contracts on the results of operations for the three months ended September 30, 2016 and 2015 is as follows:

Location of Gain (Loss) Recognized in Income on Foreign Exchange Contracts	Amount of Gain (Loss) Recognized in Income on Foreign Exchange Contracts	
	2016	2015
Other expense	\$ 4	\$ (4)

The effect of the foreign exchange derivative contracts on the results of operations for the nine months ended September 30, 2016 and 2015 is as follows:

Location of Gain Recognized in Income on Foreign Exchange Contracts	Amount of Gain Recognized in Income on Foreign Exchange Contracts	
	2016	2015
Other expense	\$ 6	\$ 2

### Balance Sheet Classification

The Company records the fair values of derivative financial instruments on the balance sheet as follows: (a) receivables if the instrument has a positive fair value and maturity within one year, (b) deposits, receivables, and other assets if the instrument has a positive fair value and maturity after one year, and (c) other accrued liabilities or other liabilities (current) if the instrument has a negative fair value and maturity within one year.

The following table shows the amount and classification (as noted above) of the Company's derivatives at September 30, 2016, December 31, 2015 and September 30, 2015:

	Balance Sheet Location	Fair Value		
		September 30, 2016	December 31, 2015	September 30, 2015
<b>Asset derivatives:</b>				
Derivatives designated as hedging instruments:				
Commodity forwards contracts	a	\$ 2	\$ —	\$ —
Derivatives not designated as hedging instruments:				
Foreign exchange derivative contracts	a	8	14	16
Total asset derivatives		<u>\$ 10</u>	<u>\$ 14</u>	<u>\$ 16</u>
<b>Liability derivatives:</b>				
Derivatives designated as hedging instruments:				
Commodity forwards contracts	c	\$ —	\$ 3	\$ 2
Derivatives not designated as hedging instruments:				
Foreign exchange derivative contracts	c	2	2	4
Total liability derivatives		<u>\$ 2</u>	<u>\$ 5</u>	<u>\$ 6</u>

## 5. Restructuring Accruals

Selected information related to the restructuring accruals for the three months ended September 30, 2016 and 2015 is as follows:

	Asia Pacific Restructuring	Other Restructuring Actions	Total Restructuring
Balance at July 1, 2016	\$ 6	\$ 28	\$ 34
Net cash paid, principally severance and related benefits	(1)	(2)	(3)
Other, including foreign exchange translation		(2)	(2)
Balance at September 30, 2016	<u>\$ 5</u>	<u>\$ 24</u>	<u>\$ 29</u>

	European Asset Optimization	Asia Pacific Restructuring	Other Restructuring Actions	Total Restructuring
Balance at July 1, 2015	\$ 11	\$ 8	\$ 33	\$ 52
Charges			35	35
Write-down of assets to net realizable value			(19)	(19)
Net cash paid, principally severance and related benefits		(1)	(4)	(5)
Other, including foreign exchange translation			(1)	(1)
Balance at September 30, 2015	<u>\$ 11</u>	<u>\$ 7</u>	<u>\$ 44</u>	<u>\$ 62</u>

Selected information related to the restructuring accruals for the nine months ended September 30, 2016 and 2015 is as follows:

	Asia Pacific Restructuring	Other Restructuring Actions	Total Restructuring
Balance at January 1, 2016	\$ 7	\$ 36	\$ 43
Charges	1	18	19
Write-down of assets to net realizable value		(7)	(7)
Net cash paid, principally severance and related benefits	(2)	(18)	(20)
Other, including foreign exchange translation	(1)	(5)	(6)
Balance at September 30, 2016	<u>\$ 5</u>	<u>\$ 24</u>	<u>\$ 29</u>

	European Asset Optimization	Asia Pacific Restructuring	Other Restructuring Actions	Total Restructuring
Balance at January 1, 2015	\$ 12	\$ 12	\$ 36	\$ 60
Charges			5	57
Write-down of assets to net realizable value			(4)	(30)
Net cash paid, principally severance and related benefits			(5)	(20)
Other, including foreign exchange translation	(1)	(1)	(3)	(5)
Balance at September 30, 2015	<u>\$ 11</u>	<u>\$ 7</u>	<u>\$ 44</u>	<u>\$ 62</u>

The Company's decisions to curtail selected production capacity have resulted in write downs of certain long-lived assets to the extent their carrying amounts exceeded fair value or fair value less cost to sell. The Company classified the significant assumptions used to determine the fair value of the impaired assets, which was not material, as Level 3 in the fair value hierarchy as set forth in the general accounting principles for fair value measurements.

### *Asia Pacific Restructuring*

During the nine months ended September 30, 2016, the Company recorded charges of \$1 million. These charges primarily represented other exit costs as part of the Company's Asia Pacific Restructuring program.

During the three and nine months ended September 30, 2015, the Company recorded charges of \$5 million. These charges primarily represented the write-down of assets as part of the Company's Asia Pacific Restructuring program.

The Company has recorded total cumulative charges of \$221 million under this program.

#### Other Restructuring Actions

During the nine months ended September 30, 2016, the Company recorded charges of \$18 million. These charges primarily represented employee costs, write-down of assets, and other exit costs of \$14 million for a plant closure in the first quarter of 2016 in Latin America, \$3 million related to a previous plant closure in North America and \$1 million related to other restructuring actions.

During the three and nine months ended September 30, 2015, the Company recorded charges of \$35 million and \$52 million, respectively. For the nine months ended September 30, 2015, these charges primarily represented employee costs, write-down of assets, and other exit costs of \$14 million for furnace closures in Latin America, \$35 million of severance and other exit costs related to a plant closure in North America and \$3 million related to other restructuring actions.

#### 6. Pension Benefit Plans

The components of the net periodic pension cost for the three months ended September 30, 2016 and 2015 are as follows:

	U.S.		Non-U.S.	
	2016	2015	2016	2015
Service cost	\$ 3	\$ 6	\$ 4	\$ 5
Interest cost	23	24	12	15
Expected asset return	(37)	(42)	(19)	(23)
<b>Amortization:</b>				
Actuarial loss	16	17	5	5
Net periodic pension cost	\$ 5	\$ 5	\$ 2	\$ 2

The components of the net periodic pension cost for the nine months ended September 30, 2016 and 2015 are as follows:

	U.S.		Non-U.S.	
	2016	2015	2016	2015
Service cost	\$ 11	\$ 18	\$ 13	\$ 14
Interest cost	72	72	38	39
Expected asset return	(113)	(126)	(61)	(65)
<b>Amortization:</b>				
Actuarial loss	47	55	15	15
Net periodic pension cost	\$ 17	\$ 19	\$ 5	\$ 3

In March 2016, the Company remeasured the liability related to its hourly plan in the U.S. to reflect certain changes in future benefits. The remeasurement resulted in an increase to its pension liability of approximately \$60 million and has been reflected in other comprehensive income.

#### 7. Income Taxes

The Company performs a quarterly review of the annual effective tax rate and makes changes if necessary based on new information or events. The estimated annual effective tax rate is forecasted quarterly using actual historical information and forward-looking estimates. The estimated annual effective tax rate may fluctuate due to changes in forecasted annual operating income; changes in the forecasted mix of earnings by country; changes to the valuation allowance for deferred tax assets (such changes would be recorded discretely in the quarter in which they occur); changes to actual or forecasted permanent book to tax differences (non-deductible expenses); impacts from future tax settlements with state, federal or foreign tax authorities (such changes would be recorded discretely in the quarter in which they occur); or impacts from tax law changes. To the extent such changes impact deferred tax assets/liabilities, these changes would generally be recorded discretely in the quarter in which they occur. Additionally, the annual

effective tax rate differs from the statutory U.S. Federal tax rate of 35% primarily because of valuation allowances in some jurisdictions and varying non-U.S. tax rates.

## 8. Debt

The following table summarizes the long-term debt of the Company:

	September 30, 2016	December 31, 2015	September 30, 2015
<b>Secured Credit Agreement:</b>			
Revolving Credit Facility:			
Revolving Loans	\$ —	\$ —	\$ 220
Term Loans:			
Term Loan A	1,516	1,546	1,546
Term Loan A (€279 million at September 30, 2016)	303	301	309
Term Loan B	558	563	563
Senior Notes:			
6.75%, due 2020 (€500 million)	557	542	557
4.875%, due 2021 (€330 million)	367	357	367
5.00%, due 2022	495	494	494
5.875%, due 2023	681	680	679
5.375%, due 2025	296	296	296
6.375%, due 2025	294	293	293
Senior Debentures:			
7.80%, due 2018	250	250	250
Capital Leases	62	62	60
Other	30	29	32
<b>Total long-term debt</b>	<b>5,409</b>	<b>5,413</b>	<b>5,666</b>
Less amounts due within one year	76	68	57
<b>Long-term debt</b>	<b>\$ 5,333</b>	<b>\$ 5,345</b>	<b>\$ 5,609</b>

On April 22, 2015, certain of the Company's subsidiaries entered into a Senior Secured Credit Facility (the "Agreement"), which amended and restated the previous credit agreement (the "Previous Agreement"). The proceeds from the Agreement were used to repay all outstanding amounts under the Previous Agreement and the 7.375% senior notes due 2016.

In connection with the closing of the Vitro Acquisition on September 1, 2015 (see Note 15), the Company entered into Amendment No. 2 ("Amendment No. 2") to the Agreement, which provided for additional incremental availability under the incremental dollar cap in the Agreement of up to \$1,250 million. In addition, in connection with the closing of the Vitro Acquisition, on September 1, 2015, the Company entered into the First Incremental Amendment to the Agreement (the "Incremental Amendment") pursuant to which the Company incurred \$1,250 million of senior secured incremental term loan facilities, comprised of (i) a \$675 million term loan A facility (the "incremental term loan A facility") on substantially the same terms and conditions (including as to maturity) as the term loan A facility in the Agreement and (ii) a \$575 million term loan B facility (the "incremental term loan B facility") maturing seven years after the closing of the Vitro Acquisition using its incremental capacity under the Agreement.

On February 3, 2016, the Company entered into Amendment No. 4 ("Amendment No. 4") to the Agreement which provided for an increase in the maximum Total Leverage Ratio (which is calculated by dividing consolidated total debt, less cash and cash equivalents, by consolidated EBITDA, as defined in the Agreement) for purposes of the financial covenant in the Agreement to 5.0x for the fiscal quarters ending March 31, 2016, June 30, 2016 and September 30, 2016, 4.5x for the fiscal quarters ending December 31, 2016, March 31, 2017, June 30, 2017 and September 30, 2017, and stepping down to 4.0x for the fiscal quarter ending December 31, 2017 and each fiscal quarter thereafter.

At September 30, 2016, the Agreement, as amended through Amendment No. 4 (the "Amended Agreement"), includes a \$300 million revolving credit facility, a \$600 million multicurrency revolving credit facility, a \$1,575 million term loan A facility (\$1,516 million net of debt issuance costs), and a €279 million term loan A facility (\$303 million net

of debt issuance costs), each of which has a final maturity date of April 22, 2020. The Amended Agreement also includes a \$575 million term loan B facility (\$558 million net of debt issuance costs) with a final maturity date of September 1, 2022. At September 30, 2016, the Company had unused credit of \$880 million available under the Amended Agreement. The weighted average interest rate on borrowings outstanding under the Amended Agreement at September 30, 2016 was 2.57%.

The Amended Agreement contains various covenants that restrict, among other things and subject to certain exceptions, the ability of the Company to incur certain liens, make certain investments, become liable under contingent obligations in certain defined instances only, make restricted payments, make certain asset sales within guidelines and limits, engage in certain affiliate transactions, participate in sale and leaseback financing arrangements, alter its fundamental business, and amend certain subordinated debt obligations.

The Amended Agreement also contains one financial maintenance covenant, a Total Leverage Ratio, that requires the Company as of the last day of a fiscal quarter not to exceed the maximum levels set forth in Amendment No. 4 (as more particularly described above). The Total Leverage Ratio could restrict the ability of the Company to undertake additional financing or acquisitions to the extent that such financing or acquisitions would cause the Total Leverage Ratio to exceed the specified maximum.

Failure to comply with these covenants and restrictions could result in an event of default under the Amended Agreement. In such an event, the Company could not request borrowings under the revolving facility, and all amounts outstanding under the Amended Agreement, together with accrued interest, could then be declared immediately due and payable. If an event of default occurs under the Amended Agreement and the lenders cause all of the outstanding debt obligations under the Amended Agreement to become due and payable, this would result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. As of September 30, 2016, the Company was in compliance with all covenants and restrictions in the Amended Agreement. In addition, the Company believes that it will remain in compliance and that its ability to borrow funds under the Amended Agreement will not be adversely affected by the covenants and restrictions.

The interest rates on borrowings under the Amended Agreement are, at the Company's option, the Base Rate or the Eurocurrency Rate, as defined in the Amended Agreement, plus an applicable margin. The applicable margin for the term loan A facility and the revolving credit facility is linked to the Company's Total Leverage Ratio and ranges from 1.25% to 1.75% for Eurocurrency Rate loans and from 0.25% to 0.75% for Base Rate loans. In addition, a facility fee is payable on the revolving credit facility commitments ranging from 0.20% to 0.30% per annum linked to the Total Leverage Ratio. The applicable margin for the term loan B facility is 2.75% for Eurocurrency Rate loans and 1.75% for Base Rate loans. The incremental term loan B facility is subject to a LIBOR floor of 0.75%.

Borrowings under the Amended Agreement are secured by substantially all of the assets, excluding real estate and certain other excluded assets, of certain of the Company's domestic subsidiaries and certain foreign subsidiaries. Borrowings are also secured by a pledge of intercompany debt and equity investments in certain of the Company's domestic subsidiaries and, in the case of foreign borrowings, of stock of certain foreign subsidiaries. All borrowings under the Amended Agreement are guaranteed by certain domestic subsidiaries of the Company for the term of the Amended Agreement.

Also, in connection with the Vitro Acquisition, during August 2015, the Company issued senior notes with a face value of \$700 million that bear interest at 5.875% and are due August 15, 2023 (the "Senior Notes due 2023") and senior notes with a face value of \$300 million that bear interest at 6.375% and are due August 15, 2025 (together with the Senior Notes due 2023, the "2015 Senior Notes"). The 2015 Senior Notes were issued via a private placement and are guaranteed by certain of the Company's domestic subsidiaries. The net proceeds from the 2015 Senior Notes, after deducting the debt discount and debt issuance costs, totaled approximately \$972 million and were used to finance, in part, the Vitro Acquisition.

The Company has a €185 million European accounts receivable securitization program, which extends through March 2019, subject to periodic renewal of backup credit lines.

Information related to the Company's accounts receivable securitization program is as follows:

	September 30, 2016	December 31, 2015	September 30, 2015
Balance (included in short-term loans)	\$ 158	\$ 158	\$ 173
Weighted average interest rate	0.67 %	1.21 %	1.11 %

The carrying amounts reported for the accounts receivable securitization program, and certain long-term debt obligations subject to frequently redetermined interest rates, approximate fair value. Fair values for the Company's significant fixed rate debt obligations are based on published market quotations, and are classified as Level 1 in the fair value hierarchy.

Fair values at September 30, 2016 of the Company's significant fixed rate debt obligations are as follows:

	Principal Amount	Indicated Market Price	Fair Value
<b>Senior Notes:</b>			
6.75%, due 2020 (€500 million)	\$ 561	\$ 120.37	\$ 675
4.875%, due 2021 (€330 million)	370	114.45	423
5.00%, due 2022	500	106.31	532
5.875%, due 2023	700	107.75	754
6.375%, due 2025	300	111.00	333
5.375%, due 2025	300	104.75	314
<b>Senior Debentures:</b>			
7.80%, due 2018	250	108.59	271

## 9. Contingencies

### *Asbestos*

The Company is a defendant in numerous lawsuits alleging bodily injury and death as a result of exposure to asbestos. From 1948 to 1958, one of the Company's former business units commercially produced and sold approximately \$40 million of a high-temperature, calcium-silicate based insulation material containing asbestos. The Company sold its insulation business unit at the end of April 1958. The typical asbestos personal injury lawsuit alleges various theories of liability, including negligence, gross negligence and strict liability and seeks compensatory and, in some cases, punitive damages in various amounts (herein referred to as "asbestos claims").

As of September 30, 2016, the Company has determined that it is a named defendant in asbestos lawsuits and claims involving approximately 1,600 plaintiffs and claimants. Based on an analysis of the lawsuits pending as of December 31, 2015, approximately 82% of plaintiffs either do not specify the monetary damages sought, or in the case of court filings, claim an amount sufficient to invoke the jurisdictional minimum of the trial court. Approximately 11% of plaintiffs specifically plead damages above the jurisdictional minimum up to, and including, \$15 million or less, and 7% of plaintiffs specifically plead damages greater than \$15 million but less than or equal to \$100 million.

As indicated by the foregoing summary, current pleading practice permits considerable variation in the assertion of monetary damages. The Company's experience resolving hundreds of thousands of asbestos claims and lawsuits over an extended period demonstrates that the monetary relief alleged in a complaint bears little relevance to a claim's merits or disposition value. Rather, the amount potentially recoverable is determined by such factors as the type and severity of the plaintiff's asbestos disease, the plaintiff's medical history and exposure to other disease-causing agents, the product identification evidence against the Company and other co-defendants, the defenses available to the Company and other co-defendants, the specific jurisdiction in which the claim is made, and the plaintiff's firm representing the claimant.

In addition to the pending claims set forth above, the Company has claims-handling agreements in place with many plaintiffs' counsel throughout the country. These agreements require evaluation and negotiation regarding whether particular claimants qualify under the criteria established by such agreements. The criteria for such claims include verification of a compensable illness and a reasonable probability of exposure to a product manufactured by the Company's former business unit during its manufacturing period ending in 1958.

The Company has also been a defendant in other asbestos-related lawsuits or claims involving maritime workers, medical monitoring claimants, co-defendants and property damage claimants. Based upon its past experience, the Company believes that these categories of lawsuits and claims will not involve any material liability and they are not included in the above description of pending matters or in the following description of disposed matters.

Since receiving its first asbestos claim, the Company as of September 30, 2016, has disposed of the asbestos claims of approximately 397,000 plaintiffs and claimants at an average indemnity payment per claim of approximately \$9,300. The Company's asbestos indemnity payments have varied on a per claim basis, and are expected to continue to vary considerably over time. Asbestos-related cash payments for 2015, 2014 and 2013 were \$138 million, \$148 million, and \$158 million, respectively. The Company's cash payments per claim disposed (inclusive of legal costs) were approximately \$95,000, \$81,000 and \$93,000 for the years ended December 31, 2015, 2014 and 2013, respectively.

As discussed above, the Company's objective is to achieve, where possible, resolution of asbestos claims pursuant to claims-handling agreements. Failure of claimants to meet certain medical and product exposure criteria in the Company's administrative claims handling agreements has generally reduced the number of claims that would otherwise have been received by the Company in the tort system. In addition, certain court orders and legislative acts have reduced or eliminated the number of claims that the Company otherwise would have received by the Company in the tort system. These developments generally have had the effect of increasing the Company's per-claim average indemnity payment over time.

Beginning with the initial liability of \$975 million established in 1993, the Company has accrued a total of approximately \$4.9 billion through 2015, before insurance recoveries, for its asbestos-related liability. The Company's estimates of its liability have been significantly affected by, among other factors, the volatility of asbestos-related litigation in the United States, the significant number of co-defendants that have filed for bankruptcy, the inherent uncertainty of future disease incidence and claiming patterns against the Company, the significant expansion of the defendants that are now sued in this litigation, and the continuing changes in the extent to which these defendants participate in the resolution of cases in which the Company is also a defendant.

The Company continues to monitor trends that may affect its ultimate liability and analyze the developments and variables likely to affect the resolution of pending and future asbestos claims against the Company. The material components of the Company's accrued liability are determined by the Company in connection with its annual comprehensive legal review and consist of the following estimates, to the extent it is probable that such liabilities have been incurred and can be reasonably estimated: (i) the liability for asbestos claims already asserted against the Company; (ii) the liability for asbestos claims not yet asserted against the Company; and (iii) the legal defense costs estimated to be incurred in connection with the claims already asserted and those claims the Company believes will be asserted.

As noted above, the Company conducts a comprehensive legal review of its asbestos-related liabilities and costs annually in connection with finalizing and reporting its annual results of operations, unless significant changes in trends or new developments warrant an earlier review. As part of its annual comprehensive legal review, the Company provides historical claims filing data to a third party with expertise in determining the impact of disease incidence and mortality on future filing trends to develop information to assist the Company in estimating the total number of future claims to be filed. The Company uses this estimate of total future claims, along with an estimation of disposition costs and related legal costs as inputs to develop its best estimate of probable liability. If the results of the annual comprehensive legal review indicate that the existing amount of the accrued liability is lower (higher) than its reasonably estimable asbestos-related costs, then the Company will record an appropriate charge (credit) to the Company's results of operations to increase (decrease) the accrued liability.

The significant assumptions underlying the material components of the Company's accrual are:

- a) settlements will continue to be limited almost exclusively to claimants who were exposed to the Company's asbestos-containing insulation prior to its exit from that business in 1958;
- b) claims will continue to be resolved primarily under the Company's administrative claims agreements or on terms comparable to those set forth in those agreements;
- c) the incidence of serious asbestos-related disease cases and claiming patterns against the Company for such cases do not change materially;
- d) the Company is substantially able to defend itself successfully at trial and on appeal;

- e) the number and timing of additional co-defendant bankruptcies do not change significantly the assets available to participate in the resolution of cases in which the Company is a defendant; and
- f) co-defendants with substantial resources and assets continue to participate significantly in the resolution of future asbestos lawsuits and claims.

The Company revised its method for estimating its asbestos-related liabilities in connection with finalizing and reporting its restated results of operations for the year ended December 31, 2015 and 2014 and concluded that an accrual in the amount of \$817 million and \$939 million as of December 31, 2015 and 2014, respectively was required. These amounts have not been discounted for the time value of money. The application of the revised method also resulted in charges of \$16 million, \$46 million and \$12 million for the years ending December 31, 2015, 2014 and 2013, respectively.

The Company believes it is reasonably possible that it will incur a loss for its asbestos-related liabilities in excess of the amount currently recognized, which is \$817 million as of December 31, 2015. The Company estimates that reasonably possible losses could be as high as \$950 million. This estimate of additional reasonably possible loss reflects a legal judgment about the number and cost of potential future claims and legal costs. The Company believes this estimate is consistent with the level of variability it has experienced when comparing actual results to recent near-term projections. However, it is also possible that the ultimate asbestos-related liability could be above this estimate.

The Company expects a significant majority of the total number of claims to be received in the next ten years. This timeframe appropriately reflects the mortality of current and expected claimants in light of the Company's sale of its insulation business unit in 1958.

As noted above, the Company's asbestos-related liability is based on a projection of new claims that will eventually be filed against the Company and the estimated average disposition cost of these claims and related legal costs. Changes in the significant assumptions noted above have the potential to impact these key factors, which are critical to the estimation of the Company's asbestos-related liability significantly.

#### *Other Matters*

The Company's joint venture in China is involved in litigation with its partner regarding whether the joint venture should be dissolved. Following an ownership change with respect to the joint venture partner, the Company is now in discussions with the new partner to resolve the dispute. As a result, all legal actions are on-hold. As of September 30, 2016, the Company's equity investment in this joint venture was approximately \$72 million. The Company intends to vigorously defend its position in this litigation, but is unable to predict the final outcome of the matter.

On July 5, 2016, the Company learned that the Enforcement Division of the SEC is conducting an investigation into certain accounting and control matters pertaining to the Company's determination of its asbestos-related liabilities. On May 13, 2016, the Company restated its consolidated financial statements for the years ended December 31, 2015, 2014 and 2013 in order to correct an error related to the Company's method for estimating its future asbestos-related liabilities. The Company is cooperating with the SEC's investigation. At this time, the Company is unable to predict the outcome of this matter or provide meaningful quantification of how the final resolution of this matter may impact its future consolidated financial statements, results of operations, or cash flows.

Other litigation is pending against the Company, in many cases involving ordinary and routine claims incidental to the business of the Company and in others presenting allegations that are non-routine and involve compensatory, punitive or treble damage claims as well as other types of relief. The Company records a liability for such matters when it is both probable that the liability has been incurred and the amount of the liability can be reasonably estimated. Recorded amounts are reviewed and adjusted to reflect changes in the factors upon which the estimates are based, including additional information, negotiations, settlements and other events.

## 10. Share Owners' Equity

The activity in share owners' equity for the three months ended September 30, 2016 and 2015 is as follows:

	Share Owners' Equity of the Company						
	Common Stock	Capital in Excess of Par Value	Treasury Stock	Retained Loss	Accumulated Other Comprehensive Loss	Non-controlling Interests	Total Share Owners' Equity
Balance on July 1, 2016	\$ 2	\$ 3,078	\$ (566)	\$ (133)	\$ (2,033)	\$ 110	\$ 458
Issuance of common stock (836 shares)							—
Reissuance of common stock (114,039 shares)			3				3
Stock compensation							—
Net earnings				108		6	114
Other comprehensive loss					(57)	(2)	(59)
Acquisitions of noncontrolling interests		(1)					(1)
Balance on September 30, 2016	\$ 2	\$ 3,077	\$ (563)	\$ (25)	\$ (2,090)	\$ 114	\$ 515

	Share Owners' Equity of the Company

Tax effect		(1)	2	1
Other comprehensive income (loss) attributable to the Company	(483)	(5)	70	(418)
Balance on September 30, 2015	\$ (538)	\$ (16)	\$ (1,358)	\$ (1,912)

(a) Amount is included in Cost of goods sold on the Condensed Consolidated Results of Operations (see Note 4 for additional information).

(b) Amount is included in the computation of net periodic pension cost (see Note 6 for additional information) and net postretirement benefit cost.

## 12. Other Expense (Income), net

Other expense (income), net for the three and nine months ended September 30, 2016 and 2015 included the following:

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
Restructuring, asset impairment and related charges	\$ —	\$ 35	\$ 19	\$ 57
Gain on sale of land in China			(7)	
Strategic transaction costs		13		19
Foreign currency exchange loss (gain)	2	(2)	6	(10)
Other expense (income)	(7)	(2)	6	(7)
	\$ (5)	\$ 44	\$ 24	\$ 59

### 13. Earnings Per Share

The following tables set forth the computation of basic and diluted earnings per share:

	Three months ended September 30,	
	2016	2015
Numerator:		
Net earnings attributable to the Company	\$ 108	\$ 17
Denominator (in thousands):		
Denominator for basic earnings per share-weighted average shares outstanding	162,080	160,730
Effect of dilutive securities:

Net earnings	\$ 1.72	\$ 0.79
Diluted earnings per share:		
Earnings from continuing operations	\$ 1.75	\$ 0.81
Loss from discontinued operations	(0.04)	(0.02)
Net earnings	\$ 1.71	\$ 0.79

Options to purchase 2,922,833 and 1,872,891 weighted average shares of common stock which were outstanding during the nine months ended September 30, 2016 and 2015, respectively, were not included in the computation of diluted earnings per share because the options exercise price was greater than the average market price of the common shares.

#### 14. Supplemental Cash Flow Information

Financial information regarding the Company's supplemental cash flow information is as follows:

	Nine months ended September 30,	
	2016	2015
Interest paid in cash	\$ 214	\$ 192
Income taxes paid in cash (all non-U.S.):	93	93

The Company uses various factoring programs to sell certain receivables to financial institutions as part of managing its cash flows. The amount of receivables sold by the Company was \$240 million, \$317 million and \$336 million at September 30, 2016, December 31, 2015 and September 30, 2015, respectively. Any continuing involvement with the sold receivables is immaterial.

#### 15. Business Combinations

On September 1, 2015, the Company completed the Vitro Acquisition in a cash transaction valued at approximately \$2.297 billion in cash, subject to a working capital adjustment and certain other adjustments. The Vitro Business in Mexico is the largest supplier of glass containers in that country manufacturing glass containers across multiple end uses, including food, soft drinks, beer, wine and spirits. The Vitro Acquisition included five food and beverage glass container plants in Mexico, a plant in Bolivia and a North American distribution business, and provided the Company with a competitive position in the glass packaging market in Mexico. The results of the Vitro Business have been included in the Company's consolidated financial statements since September 1, 2015 and contributed approximately \$606 million of incremental net sales and \$123 million of incremental segment operating profit in the first nine months of 2016. Vitro's food and beverage glass container operations in Mexico and Bolivia are included in the Latin American operating segment while its distribution business is included in the North American operating segment.

The Company financed the Vitro Acquisition with the proceeds from a senior notes offering, cash on hand and the incremental term loan facilities (see Note 8).

The total purchase price was allocated to the tangible and identifiable intangible assets and liabilities based upon their respective fair values. The purchase agreement contained customary provisions for working capital adjustments, which the Company resolved with the seller in the first quarter of 2016. The Company completed the purchase price allocation process in the third quarter of 2016. The following table summarizes the fair value of the assets and liabilities assumed on September 1, 2015 and subsequent adjustments identified through the purchase price allocation process and recorded through the measurement period:

	September 1, 2015	Measurement Period Adjustments	September 30, 2016
Cash	\$ 17	\$ —	\$ 17
Other current assets	344	(10)	334
Goodwill	1,073	(236)	837
Customer list intangibles and other	406	202	608
Net property, plant and equipment	597	48	645
Total assets	2,437	4	2,441
Current liabilities	93	(7)	86
Long-term debt	11		11
Long-term liabilities	36	11	47
Net assets acquired	\$ 2,297	\$ —	\$ 2,297

The fair value of the tangible assets was estimated utilizing income and market approaches, considering remaining useful life. The customer list intangible asset includes the Company's established relationships with its customers and the ability of these customers to generate future economic profits for the Company. The value assigned to customer list

intangibles is based on the present value of future earnings attributable to the asset group after recognition of required returns to other contributory assets.

Recognized goodwill is attributable to the assembled workforce, expected synergies and other intangible assets that do not qualify for separate recognition. The Vitro Acquisition goodwill is not deductible for tax purposes.

The balance sheet adjustments identified above did not result in any significant adjustments to the periods' income statement.

## 16. Pro Forma Information – Vitro Acquisition

Had the Vitro Acquisition, described in Note 15 and the related financing described in Note 8, occurred at the beginning of the period, unaudited pro forma consolidated net sales, earnings from continuing operations and earnings from continuing operations per share of common stock (diluted) would have been as follows:

	Three Months Ended September 30, 2015			
	As Reported	Acquisition Adjustments	Financing Adjustments	Pro Forma As Adjusted
Net sales	\$ 1,566	\$ 143	\$	\$ 1,709
Earnings from continuing operations attributable to the Company	\$ 18	\$ 18	\$ (11)	\$ 25
Diluted earnings per share from continuing operations	0.11			\$ 0.15

	Nine months ended September 30, 2015			
	As Reported	Acquisition Adjustments	Financing Adjustments	Pro Forma As Adjusted
Net sales	\$ 4,530	\$ 574	\$	\$ 5,104
Earnings from continuing operations attributable to the Company	\$ 131	\$ 79	\$ (46)	\$ 164
Diluted earnings per share from continuing operations	\$ 0.81			\$ 1.01

## 17. Discontinued Operations

On April 4, 2016, the annulment committee formed by the World Bank's International Centre for Settlement of Investment Disputes ("ICSID") ruled that a subsidiary of the Company is free to pursue the enforcement of a prior arbitration award against Venezuela. That award amounts to more than \$485 million after including interest from the date of the expropriation by Venezuela (October 26, 2010). Venezuela's application to annul the award is still pending, although the annulment proceedings were recently suspended because Venezuela has not paid its fees owed to ICSID. If the proceeding is stayed for non payment for a consecutive period in excess of six months, ICSID's Secretary General could move that the committee discontinue the annulment proceeding altogether. The Company intends to take appropriate steps to vigorously enforce and collect the award, which is enforceable in approximately 150 member states that are party to the ICSID Convention. However, even with the lifting of the stay of enforcement, the Company recognizes that the collection of the award may present significant practical challenges. Because the award has yet to be satisfied and the annulment proceeding is pending, the Company is unable at this stage to reasonably predict the efforts that will be necessary to successfully enforce collection of the award, the amount of the award or the timing of any such collection efforts. Therefore, the Company has not recognized this award in its financial statements.

A separate arbitration is pending with ICSID to obtain compensation primarily for third-party minority shareholders' lost interests in the two expropriated plants.

The loss from discontinued operations of \$6 million and \$3 million for the nine months ended September 30, 2016 and September 30 2015, respectively, relates to ongoing costs for the Venezuelan expropriation.

#### **18. New Accounting Pronouncement**

*Revenue from Contracts with Customers* - In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers", which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. In August 2015, the FASB issued ASU No. 2015-14, "Revenue from Contracts with Customers", which delayed by one year the effective date of the new revenue recognition standard, which will be effective for the Company on January 1, 2018. The Company is currently evaluating the effect this standard will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method and is in the process of determining the effect of the standard on its ongoing financial reporting.

*Leases* - In February 2016, the FASB issued ASU No. 2016-02, "Leases", which will require an entity to recognize lease-related assets and liabilities on their balance sheet. The amendments in this update are effective for fiscal years beginning after December 15, 2018. The Company is currently evaluating the effect this standard will have on its consolidated financial statements and related disclosures.

*Stock Compensation* - In March 2016, the FASB issued ASU No. 2016-09, "Improvements to Employee Share-Based Payment Accounting," which requires all excess tax benefits or deficiencies to be recognized as income tax expense or benefit in the income statement. In addition, excess tax benefits should be classified along with other income tax cash flows as an operating activity in the statement of cash flows. Application of the standard is required for the annual and interim periods beginning after December 15, 2016. The Company is currently evaluating the impact the new standard will have on its condensed consolidated financial statements.

#### **19. Financial Information for Subsidiary Guarantors and Non-Guarantors**

The following presents condensed consolidating financial information for the Company, segregating: (1) Owens-Illinois, Inc., the issuer of senior debentures (the "Parent"); (2) the two subsidiaries which have guaranteed the senior debentures on a subordinated basis (the "Guarantor Subsidiaries"); and (3) all other subsidiaries (the "Non-Guarantor Subsidiaries"). The Guarantor Subsidiaries are 100% owned direct and indirect subsidiaries of the Company and their guarantees are full, unconditional and joint and several. They have no operations and function only as intermediate holding companies.

Certain reclassifications have been made to conform all of the financial information to the financial presentation on a consolidated basis. The principal eliminations relate to investments in subsidiaries and intercompany balances and transactions.

**Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

The Company’s measure of profit for its reportable segments is segment operating profit, which consists of consolidated earnings from continuing operations before interest income, interest expense, and provision for income taxes and excludes amounts related to certain items that management considers not representative of ongoing operations as well as certain retained corporate costs. The segment data presented below is prepared in accordance with general accounting principles for segment reporting. The lines titled “reportable segment totals” in both net sales and segment operating profit, however, are non-GAAP measures when presented outside of the financial statement footnotes. Management has included reportable segment totals below to facilitate the discussion and analysis of financial condition and results of operations and believes this information allows the board of directors, management, investors and analysts to better understand the Company’s financial performance. The Company’s management uses segment operating profit, in combination with net sales and selected cash flow information, to evaluate performance and to allocate resources.

Financial information for the three and nine months ended September 30, 2016 and 2015 regarding the Company’s reportable segments is as follows (dollars in millions):

	<b>Three months ended September 30,</b>		<b>Nine months ended September 30,</b>	
	<b>2016</b>	<b>2015</b>	<b>2016</b>	<b>2015</b>
<b>Net Sales:</b>				
Europe	\$ 586	\$ 605	\$ 1,795	\$ 1,809

Note: All amounts excluded from reportable segment totals are discussed in the following applicable sections.

### Executive Overview — Quarters ended September 30, 2016 and 2015

#### Third Quarter 2016 Highlights

- The September 1, 2015 Vitro Acquisition increased net sales by \$162 million and segment operating profit by \$37 million compared to the prior year quarter
- Net sales in the third quarter of 2016 were \$1.7 billion, up 9% from the prior year third quarter, primarily due to incremental net sales from the Vitro Acquisition. Excluding the acquisition, shipments were down 2% compared to the prior year period, mainly due to the challenging economic environment in Brazil and Ecuador
- Driven by the Vitro Acquisition and progress on strategic initiatives, segment operating profit was higher in all regions, except for Europe, in the third quarter of 2016 compared to the prior year quarter

Net sales for the third quarter of 2016 were \$146 million higher than the third quarter of the prior year primarily due to approximately \$162 million of net sales from the acquired Vitro Business, partially offset by lower organic sales volumes (excluding the impact of the Vitro Business).

Segment operating profit for reportable segments for the third quarter of 2016 was \$38 million higher than the third quarter of the prior year. The increase was largely attributable to approximately \$37 million of segment operating profit from the acquired Vitro Business. Higher pricing in the quarter was mostly offset by lower organic sales volumes, unfavorable effect of changes in foreign currency exchange rates and higher operating costs due to cost inflation.

Net interest expense for the third quarter of 2016 decreased \$1 million compared to the third quarter of 2015. Interest expense in the third quarter of 2015 included \$14 million principally due to note repurchase premiums and the write-off of finance fees related to debt redeemed in the quarter. Exclusive of these items, net interest expense increased \$13 million in the current year quarter primarily due to higher debt levels due to the Vitro Acquisition.

For the third quarter of 2016, the Company recorded earnings from continuing operations attributable to the Company of \$111 million, or \$0.68 per share (diluted), compared to \$18 million, or \$0.11 per share (diluted), in the third quarter of 2015. Earnings in the third quarter of 2015 included items that management considered not representative of ongoing operations. These items decreased net earnings attributable to the Company by \$74 million, or \$0.46 per share in the third quarter of 2015 as set forth in the following table (dollars in millions).

<b>Description</b>	<b>Net Earnings Increase (Decrease) 2015</b>
Restructuring, asset impairment and other charges	\$ (41)
Note repurchase premiums and write-off of finance fees	(14)
Strategic transaction costs	(13)
Acquisition - related fair value inventory adjustments	(10)
Net tax benefit for income tax on items above	4
<b>Total</b>	<b>\$ (74)</b>

### Results of Operations — Third Quarter of 2016 compared with Third Quarter of 2015

#### Net Sales

The Company's net sales in the third quarter of 2016 were \$1,712 million compared with \$1,566 million for the third quarter of 2015, an increase of \$146 million, or 9%. Driven by incremental shipments related to the Vitro Acquisition, total glass container shipments, in tonnes, were up approximately 8% in the third quarter of 2016 compared to the prior year quarter. This resulted in approximately \$162 million of additional sales. Excluding the impact of the Vitro Acquisition, shipments were down approximately 2% for the third quarter of 2016 compared to the same period in 2015, primarily due to continuing weakness in Brazil. In total, foreign currency exchange rates were comparable in the third quarter of 2016 with the prior year quarter. Slightly higher selling prices benefited net sales by \$19 million in the quarter and were primarily driven by price adjustments that reflect cost inflation.

The change in net sales of reportable segments can be summarized as follows (dollars in millions):

Reportable segment net sales— 2015	\$ 1,552
Price	\$ 19
Sales volume (excluding Vitro acquisition)	(34)
Vitro acquisition	162
Total effect on reportable segment net sales	147
Reportable segment net sales— 2016	<u>\$ 1,699</u>

Europe: Net sales in Europe in the third quarter of 2016 were \$586 million compared with \$605 million for the third quarter of 2015, a decrease of \$19 million, or 3%. Unfavorable effects of foreign currency exchange rate changes during the third quarter of 2016, primarily due to the weakening of the British pound in relation to the U.S. dollar, decreased net sales by \$10 million. Glass container shipments were comparable to the prior year quarter, however, a slightly unfavorable sales mix reduced net sales by \$1 million in the third quarter of 2016. The region experienced lower selling prices in the third quarter, which decreased net sales by \$8 million, compared to the same period in the prior year. Lower year-over-year pricing trends are expected to continue for the remainder of 2016.

North America: Net sales in North America in the third quarter of 2016 were \$578 million compared with \$520 million for the third quarter of 2015, an increase of \$58 million, or 11%. Net sales from the acquired Vitro food and beverage business in the U.S. increased the region's net sales by \$52 million in the quarter. Total glass container shipments in the region were up 9% in the third quarter of 2016 compared to the same quarter in the prior year. Excluding the impact of the newly acquired Vitro food and beverage business in the U.S., glass container shipments were up 3% compared to the prior year quarter, due to higher beer and non-alcoholic customer shipments. However, an unfavorable sales mix reduced net sales by \$3 million in the third quarter of 2016. This impact to sales mix was due to several customers converting a

portion of their glass shipments from carton packaging to bulk shipments. Slightly higher selling prices as a result of contractual pass throughs increased net sales by \$9 million in the third quarter of 2016.

Latin America: Net sales in Latin America in the third quarter of 2016 were \$365 million compared with \$265 million for the third quarter of 2015, an increase of \$100 million, or 38%. Net sales from the newly acquired Vitro food and beverage business in Mexico and Bolivia increased the region's net sales by \$110 million in the quarter. Total glass container shipments in the region were up 35% in the third quarter of 2016 compared to the same quarter in the prior year. Excluding the impact of the newly acquired Vitro food and beverage business in the region, shipments in the region were down nearly 15% in the quarter compared to the same period in 2015 and this decreased sales by \$26 million. This impact was primarily due to a general economic slowdown in Brazil and Ecuador. Higher pricing increased net sales by \$16 million in the current quarter.

Asia Pacific: Net sales in Asia Pacific in the third quarter of 2016 were \$170 million compared with \$162 million for the third quarter of 2015, an increase of \$8 million, or 5%. The favorable effects of foreign currency exchange rate changes during the third quarter of 2016, primarily due to the strengthening of the New Zealand dollar in relation to the U.S. dollar, increased net sales by \$10 million. Glass container shipments were down 5% in the third quarter of 2016 compared to the same period in the prior year, and this resulted in \$4 million of lower sales in the quarter. Mature markets in the region were on par with the prior year quarter, but production volumes in those countries were lower due to planned engineering activity. Sales volumes in the mature markets were supported by importing from emerging markets in the region, which in turn, led to lower domestic sales in those markets. Slightly higher selling prices also increased net sales by \$2 million in the current quarter.

*Earnings from Continuing Operations before Income Taxes and Segment Operating Profit*

Earnings from continuing operations before income taxes were \$153 million in the third quarter of 2016 compared with \$58 million for the third quarter of 2015, an increase of \$95 million, or 164%. This increase was primarily due to higher segment operating profit and lower costs for items that management does not consider representative of ongoing operations, partially offset by higher retained corporate costs and other.

Operating profit of the reportable segments includes an allocation of some corporate expenses based on a percentage of sales and direct billings based on the costs of specific services provided. Unallocated corporate expenses and certain other expenses not directly related to the reportable segments' operations are included in Retained corporate costs and other. For further information, see Segment Information included in Note 1 to the Condensed Consolidated Financial Statements.

Segment operating profit of reportable segments in the third quarter of 2016 was \$237 million compared with \$199 million for the third quarter of 2015, an increase of \$38 million, or 19%. The increase was largely attributable to approximately \$37 million of segment operating profit from the acquired Vitro Business. Higher pricing in the quarter was mostly offset by lower organic sales volumes, unfavorable effect of changes in foreign currency exchange rates and higher operating costs due to cost inflation.

The change in segment operating profit of reportable segments can be summarized as follows (dollars in millions):

Reportable segment operating profit - 2015		\$ 199
Price	\$ 19	
Sales volume (excluding Vitro acquisition)	(8)	
Operating costs	(6)	
Effects of changing foreign currency rates	(4)	
Vitro acquisition	37	
Total net effect on reportable segment operating profit		38
Reportable segment operating profit - 2016		<u>\$ 237</u>

Europe: Segment operating profit in Europe in the third quarter of 2016 was \$64 million compared with \$68 million in the third quarter of 2015, a decrease of \$4 million, or 6%. Lower selling prices decreased segment operating profit by \$8

million in the current quarter compared to the prior year quarter. The unfavorable effects of foreign currency exchange rates decreased segment operating profit by \$4 million in the current year quarter. Operating costs were \$8 million lower in the third quarter of 2016 than the prior year quarter due to energy deflation and improved operational performance, which benefited segment operating profit.

The results of the United Kingdom's referendum on withdrawal from the European Union in June 2016 is expected to have an unfavorable foreign currency exchange rate impact of approximately \$5 million (assuming September 30, 2016 exchange rates) on the region's segment operating profit for the remainder of 2016.

North America: Segment operating profit in North America in the third quarter of 2016 was \$79 million compared with \$61 million in the third quarter of 2015, an increase of \$18 million, or 30%. Segment operating profit from the acquired Vitro food and beverage business in the region contributed \$12 million of incremental profit in the quarter. Contractual pass through arrangements increased selling prices by \$9 million in the current quarter compared to the same quarter in the prior year. Higher production volumes and improved operating efficiencies were more than offset by cost inflation in the quarter. Together, this contributed to a \$3 million increase to operating costs in the third quarter of 2016.

Latin America: Segment operating profit in Latin America in the third quarter of 2016 was \$74 million compared with \$51 million in the third quarter of 2015, an increase of \$23 million, or 45%. Segment operating profit from the newly acquired Vitro food and beverage business contributed approximately \$25 million of incremental profit to the region in the quarter. Excluding the impact of the acquired Vitro food and beverage business in the region, the decrease in sales volume discussed above impacted segment operating profit by \$8 million. The unfavorable effects of foreign currency exchange rates decreased segment operating profit by \$3 million in the current year quarter. Despite management interventions to contain costs and improve asset optimization, segment operating profit was also unfavorably impacted by \$12 million of higher operating costs, primarily due to energy and soda ash inflation in Brazil. These decreases were partially offset by approximately \$5 million of non-strategic asset sales, which benefited the third quarter of 2016. Higher selling prices increased segment operating profit in the third quarter of 2016 by \$16 million.

Asia Pacific: Segment operating profit in Asia Pacific in the third quarter of 2016 was \$20 million compared with \$19 million in the third quarter of 2015, an increase of \$1 million, or 5%. Higher selling prices increased segment operating profit in the third quarter of 2016 by \$2 million. The effects of foreign currency exchange rates increased segment operating profit by \$3 million in the current year quarter. However, cost inflation, higher production downtime due to furnace rebuild activity and higher costs for intra-regional shipments drove operating costs \$4 million higher in the third quarter of 2016 compared to the same quarter in the prior year.

#### Interest Expense, Net

Net interest expense for the third quarter of 2016 was \$66 million compared with \$67 million for the third quarter of 2015. Interest expense in the third quarter of 2015 included \$14 million principally due to note repurchase premiums and the write-off of finance fees related to debt redeemed in the quarter. Exclusive of these items, net interest expense increased \$13 million in the current year quarter primarily due to higher debt levels due to the Vitro Acquisition.

## Earnings from Continuing Operations Attributable to the Company

For the third quarter of 2016, the Company recorded earnings from continuing operations attributable to the Company of \$111 million, or \$0.68 per share (diluted), compared to \$18 million, or \$0.11 per share (diluted), in the third quarter of 2015. Earnings in the third quarter of 2015 included items that management considered not representative of ongoing operations. These items decreased net earnings attributable to the Company by \$74 million, or \$0.46 per share in the third quarter of 2015 as set forth in the following table (dollars in millions).

<b>Description</b>	<b>Net Earnings</b>	
	<b>Increase (Decrease)</b>	
	<b>2015</b>	
Restructuring, asset impairment and other charges	\$	(41)
Note repurchase premiums and write-off of finance fees		(14)
Strategic transaction costs		(13)
Acquisition - related fair value inventory adjustments		(10)
Net tax benefit for income tax on items above		4
<b>Total</b>	<b>\$</b>	<b>(74)</b>

### *Executive Overview – Nine months ended September 30, 2016 and 2015*

#### *2016 Highlights*

- The September 1, 2015 Vitro Acquisition increased net sales by \$606 million and segment operating profit by \$123 million in the first nine months of 2016 compared to the prior year period
- Net sales in the first nine months of 2016 were \$5.1 billion, up 12% from the same prior year period, primarily due to incremental net sales from the Vitro Acquisition. Excluding the acquisition, shipments were comparable in both periods
- The unfavorable effect of foreign currency exchange rates reduced net sales by \$93 million and segment operating profit by \$20 million compared to the prior year period
- Driven by the Vitro Acquisition and progress on strategic initiatives, segment operating profit was higher in all regions, except for Asia Pacific, in the first nine months of 2016 compared to the prior year period

Net sales for the first nine months of 2016 were \$530 million higher than the same period in the prior year primarily due to approximately \$606 million of net sales from the acquired Vitro Business, partially offset by the unfavorable effect of changes in foreign currency exchange rates.

Segment operating profit for reportable segments for the first nine months of 2016 was \$127 million higher than the same period in the prior year. The increase was largely attributable to approximately \$123 million of segment operating profit from the acquired Vitro Business. Higher selling prices also increased segment operating profit by \$56 million. Partially offsetting this was the unfavorable effect of changes in foreign currency exchange rates and higher operating costs due to cost inflation.

Net interest expense for the first nine months of 2016 was \$199 million compared with \$188 million for the first nine months of 2015. Interest expense for 2015 included \$42 million due to note repurchase premiums and the write-off of finance fees related to debt redeemed in the first nine months of 2015. Exclusive of these items, net interest expense increased \$53 million in the current year period primarily due to higher debt levels due to the Vitro Acquisition.

Net earnings from continuing operations attributable to the Company for the first nine months of 2016 were \$286 million, or \$1.75 per share (diluted), compared with \$131 million, or \$0.81 per share (diluted), for the first nine months of 2015. Earnings in 2016 and 2015 included items that management considered not representative of ongoing operations. These items decreased net earnings attributable to the Company by \$10 million, or \$0.07 per share in the first nine months of 2016 and by \$130 million, or \$0.79 per share, in the first nine months of 2015 as set forth in the following tables.

Description	Net Earnings Increase (Decrease)	
	2016	2015
Restructuring, asset impairment and other charges	\$ (19)	\$ (69)
Gain on China land compensation	7	
Note repurchase premiums and write-off of finance fees		(42)
Strategic transaction costs		(19)
Acquisition - related fair value inventory adjustments		(10)
Net tax benefit for income tax on items above	4	10
Net impact of noncontrolling interests on items above	(2)	
Total	\$ (10)	\$ (130)

#### Results of Operations – First nine months of 2016 compared with first nine months of 2015

##### Net Sales

The Company's net sales in the first nine months of 2016 were \$5,060 million compared with \$4,530 million for the first nine months of 2015, an increase of \$530 million. Driven by incremental shipments related to the Vitro Acquisition, total glass container shipments, in tonnes, were up approximately 12% in the first nine months of 2016 compared to the same period in the prior year. This resulted in approximately \$606 million of additional sales. Excluding the impact of the Vitro Acquisition, shipments were comparable for the first nine months of 2016 to the same period in 2015, however, an unfavorable sales mix resulted in \$40 million in lower net sales in 2016. Unfavorable foreign currency exchange rates, primarily due to a weaker Euro, Brazilian real, Colombian peso, Canadian dollar and Australian dollar impacted sales by \$93 million in the first nine months of 2016 compared to the same period in 2015. Slightly higher selling prices benefited net sales by \$56 million in 2016 and were primarily driven by price adjustments that reflect cost inflation.

The change in net sales of reportable segments can be summarized as follows (dollars in millions):

Reportable segment net sales— 2015		\$ 4,484
Price	\$ 56	
Sales volume (excluding Vitro acquisition)	(40)	
Effects of changing foreign currency rates	(93)	
Vitro acquisition	606	
Total effect on reportable segment net sales		529
Reportable segment net sales— 2016		<u>\$ 5,013</u>

Europe: Net sales in Europe in the first nine months of 2016 were \$1,795 million compared with \$1,809 million for the first nine months of 2015, a decrease of \$14 million, or less than 1%. Selling prices in Europe decreased net sales by \$17 million in the first nine months of 2016 compared to the same period in the prior year. Lower year-over-year pricing trends are expected to continue for the remainder of 2016. Unfavorable foreign currency exchange rate decreased net sales by \$15 million, as the Euro and British pound weakened in relation to the U.S. dollar. Net sales were increased in the first nine months of 2016 due to a 2% increase in glass container shipments driven by higher shipments to beer and wine customers. This increased net sales by \$18 million compared to the prior year period.

North America: Net sales in North America in the first nine months of 2016 were \$1,709 million compared with \$1,520 million for the first nine months of 2015, an increase of \$189 million, or 12%. Net sales from the acquired Vitro food and beverage business in the U.S. increased the region's net sales by \$195 million in the first nine months of 2016. Total glass container shipments in the region were up 9% in the first nine months of 2016 compared to the same period in the prior year. Excluding the impact of the newly acquired Vitro food and beverage business in the U.S., glass container shipments were up 1% compared to the prior year period, however, an unfavorable sales mix reduced net sales by \$21 million in the first nine months of 2016. This impact to sales mix was due to several customers converting a portion of their glass shipments from carton packaging to bulk shipments. Slightly higher selling prices as a result of contractual pass throughs increased net sales by \$19 million in the first nine months of 2016. Unfavorable foreign currency exchange rate changes decreased net sales by \$4 million, as the Canadian dollar weakened in relation to the U.S. dollar.

Latin America: Net sales in Latin America in the first nine months of 2016 were \$1,022 million compared with \$677 million for the first nine months of 2015, an increase of \$345 million, or 51%. Net sales from the newly acquired Vitro food and beverage business in Mexico and Bolivia increased the region's net sales by \$411 million in the first nine months of 2016. Total glass container shipments in the region were up 66% in the first nine months of 2016 compared to the same period in the prior year. Excluding the impact of the newly acquired Vitro food and beverage business in the region, shipments were down nearly 9% compared to the same period in the prior year and this decreased sales by \$46 million. This impact was primarily due to a general economic slowdown in Brazil. The unfavorable effects of foreign currency exchange rate changes decreased net sales \$68 million in the first nine months of 2016 compared to 2015, principally due to a decline in the Brazilian real and Colombian peso in relation to the U.S. dollar. Higher pricing increased net sales by \$48 million in the first nine months of 2016.

Asia Pacific: Net sales in Asia Pacific in the first nine months of 2016 were \$487 million compared with \$478 million for the first nine months of 2015, an increase of \$9 million, or 2%. Glass container shipments were down 1% compared to the same period in the prior year, however, a slightly more favorable sales mix increased net sales by \$9 million in the first nine months of 2016. Sales volumes in mature markets in the region were higher than prior year, but production volumes in those countries were lower due to planned engineering activity. These lower volumes in the mature markets were supported by importing from emerging markets in the region, which in turn, led to lower domestic sales in those markets. Slightly higher selling prices in the region also increased net sales by \$6 million in the first nine months of 2016. The unfavorable effects of foreign currency exchange rate changes during the first nine months of 2016, primarily due to the weakening of the Australian dollar in relation to the U.S. dollar in the first half of the year, decreased net sales by \$6 million.

#### *Earnings from Continuing Operations before Income Taxes and Segment Operating Profit*

Earnings from continuing operations before income taxes were \$395 million in the first nine months of 2016 compared

with \$220 million for the same period in 2015, an increase of \$175 million, or 80%. This increase was primarily due to higher segment operating profit and lower costs for items that management does not consider representative of ongoing operations, partially offset by higher retained corporate costs.

Operating profit of the reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided. Unallocated corporate expenses and certain other expenses not directly related to the reportable segments' operations are included in Retained corporate costs and other. For further information, see Segment Information included in Note 1 to the Condensed Consolidated Financial Statements.

Segment operating profit of reportable segments in the first nine months of 2016 was \$681 million compared with \$554 million for the first nine months of 2015, an increase of \$127 million, or 23%. The increase was largely attributable to approximately \$123 million of segment operating profit from the acquired Vitro Business. Higher selling prices also increased segment operating profit by \$56 million. Partially offsetting this was the unfavorable effect of changes in foreign currency exchange rates and higher operating costs due to cost inflation.

The change in segment operating profit of reportable segments can be summarized as follows (dollars in millions):

Reportable segment operating profit - 2015		\$	554
Price		\$	56
Sales volume (excluding Vitro acquisition)			(8)
Operating costs			(24)
Effects of changing foreign currency rates			(20)
Vitro acquisition			123
<b>Total net effect on reportable segment operating profit</b>			<b>127</b>
Reportable segment operating profit - 2016		\$	<b>681</b>

Europe: Segment operating profit in Europe in the first nine months of 2016 was \$192 million compared with \$181 million in the first nine months of 2015, an increase of \$11 million, or 6%. The increase in sales volume discussed above improved segment operating profit by \$5 million. Operating costs were \$31 million lower in the first nine months of 2016 than the prior year period due to energy deflation and improved operational performance. In the prior year period, production volumes were lower due to asset optimization projects that have now been completed. The unfavorable effects of foreign currency exchange rates, especially the Euro and British pound, decreased segment operating profit by \$8 million in the first nine months of 2016. Lower selling prices also decreased segment operating profit in the first nine months of 2016 by \$17 million.

North America: Segment operating profit in North America in the first nine months of 2016 was \$247 million compared with \$214 million in the first nine months of 2015, an increase of \$33 million, or 15%. Segment operating profit from the acquired Vitro food and beverage business in the region contributed \$28 million of incremental profit in the first nine months of 2016. Higher selling prices as a result of contractual pass throughs increased segment operating profit by \$19 million in the first nine months of 2016 compared to the same period in the prior year. Higher production volumes and improved operating efficiencies were more than offset by cost inflation. Together, this contributed to a \$10 million increase to operating costs in the first nine months of 2016. The unfavorable sales mix discussed above reduced segment operating profit by \$4 million.

Latin America: Segment operating profit in Latin America in the first nine months of 2016 was \$194 million compared with \$108 million in the first nine months of 2015, an increase of \$86 million, or 80%. Segment operating profit from the newly acquired Vitro food and beverage business contributed approximately \$95 million of incremental profit to the region in the first nine months of 2016. Excluding the impact of the acquired Vitro food and beverage business in the region, the decrease in sales volume discussed above impacted segment operating profit by \$14 million. The unfavorable effects of foreign currency exchange rates, especially the Brazilian real and the Colombian peso, decreased segment operating profit by \$14 million in the first nine months of 2016. Despite management interventions to contain costs and improve asset optimization, segment operating profit was also unfavorably impacted by \$34 million of higher operating costs, primarily due to energy and soda ash inflation in Brazil and Ecuador. In addition, approximately \$5 million of

non-strategic asset sales benefited the first nine months of 2016. Partially offsetting these declines were higher selling prices that increased segment operating profit in the first nine months of 2016 by \$48 million.

Asia Pacific: Segment operating profit in Asia Pacific in the first nine months of 2016 was \$48 million compared with \$51 million in the first nine months of 2015, a decrease of \$3 million, or 6%. Cost inflation, higher production downtime due to furnace rebuild activity and higher costs for intra-regional shipments drove operating costs \$16 million higher in the first nine months of 2016 compared to the same period in the prior year. The favorable effects of foreign currency exchange rates, especially the Australian and New Zealand dollar, increased segment operating profit by \$2 million in the first nine months of 2016. The more favorable sales mix discussed above improved segment operating profit by \$5 million. Higher selling prices also increased segment operating profit in the first nine months of 2016 by \$6 million.

#### Interest Expense, Net

Net interest expense for the first nine months of 2016 was \$199 million compared with \$188 million for the first nine months of 2015. Interest expense for the first nine months of 2015 included \$42 million due to note repurchase premiums and the write-off of finance fees related to debt redeemed in the third quarter of 2015. Exclusive of these items, net interest expense increased \$53 million in the current year period primarily due to higher debt levels due to the Vitro Acquisition.

#### Provision for Income Taxes

The Company's effective tax rate from continuing operations for the nine months ended September 30, 2016 was 23.5% compared with 33.2% for the nine months ended September 30, 2015. The Company's effective tax rate for the first nine months of 2015 was higher than in the comparable 2016 period due to the impact of significant costs related to refinancing, restructuring and acquisition-related costs within jurisdictions that generated little or no tax benefit.

The Company expects that the full year effective tax rate for 2016 will be approximately 24% compared with 24.6% for 2015 (excluding items that management considers not representative of ongoing operations).

#### Earnings from Continuing Operations Attributable to the Company

For the first nine months of 2016, the Company recorded earnings from continuing operations attributable to the Company of \$286 million, or \$1.75 per share (diluted), compared \$131 million, or \$0.81 per share (diluted), in the first nine months of 2015. Earnings in 2016 and 2015 included items that management considered not representative of ongoing operations. These items decreased net earnings attributable to the Company by \$10 million, or \$0.07 per share in the first nine months of 2016 and by \$130 million, or \$0.79 per share, in the first nine months of 2015 as set forth in the following table.

Description	Net Earnings Increase (Decrease)	
	2016	2015
Restructuring, asset impairment and other charges	\$ (19)	\$ (69)
Gain on China land compensation	7	
Note repurchase premiums and write-off of finance fees		(42)
Strategic transaction costs		(19)
Acquisition - related fair value inventory adjustments		(10)
Net tax benefit for income tax on items above	4	10
Net impact of noncontrolling interests on items above	(2)	
Total	\$ (10)	\$ (130)

## Items Excluded from Reportable Segment Totals

### Retained Corporate Costs and Other

Retained corporate costs and other for the third quarter of 2016 were \$18 million compared with \$10 million for the third quarter of 2015, and \$75 million for the first nine months of 2016 compared with \$49 million for the first nine months of 2015. These costs were higher in the third quarter and first nine months of 2016 compared to the same periods in the prior year primarily due to the unfavorable year-over-year impact from currency hedges, higher management incentive accruals and higher non-service pension costs.

### Restructuring, Asset Impairments and Other Charges

During the nine months ended September 30, 2016, the Company recorded net restructuring, asset impairment and other charges of \$12 million. These charges primarily related to \$19 million of restructuring in the Latin America region. Partially offsetting this was a \$7 million gain related to compensation received for land that the Company was required to return to the Chinese government.

During the three and nine months ended September 30, 2015, the Company recorded restructuring, asset impairment and other charges of \$41 million and \$68 million, respectively. For the three months ended September 30, 2015, these charges reflect \$35 million primarily related to restructuring in the North America, Asia Pacific and Latin America regions and other charges of \$6 million. For the nine months ended September 30, 2015, these charges reflect \$57 million primarily related to restructuring in the North America, Asia Pacific and Latin America regions and other charges of \$11 million. See Note 5 to the Condensed Consolidated Financial Statements for additional information.

### Acquisition-related Fair Value Inventory Adjustments and Strategic Transaction Costs

During both the three and nine months ended September 30, 2015, the Company recorded a charge of \$10 million for acquisition-related fair value inventory adjustments related to the Vitro Acquisition. This charge was due to the accounting rules requiring inventory purchased in a business combination to be marked up to fair value and then recorded as an increase to cost of goods sold as the inventory is sold.

During the three and nine months ended September 30, 2015, the Company recorded charges of \$13 million and \$19 million, respectively, for strategic transaction costs related to the Vitro Acquisition.

### Discontinued Operations

On April 4, 2016, the annulment committee formed by the World Bank's International Centre for Settlement of Investment Disputes ("ICSID") ruled that a subsidiary of the Company is free to pursue the enforcement of a prior arbitration award against Venezuela. That award amounts to more than \$485 million after including interest from the date of the expropriation by Venezuela (October 26, 2010). Venezuela's application to annul the award is still pending, although the annulment proceedings were recently suspended because Venezuela has not paid its fees owed to ICSID. If the proceeding is stayed for non-payment for a consecutive period in excess of six months, ICSID's Secretary General could move that the committee discontinue the annulment proceeding altogether. The Company intends to take appropriate steps to vigorously enforce and collect the award, which is enforceable in approximately 150 member states that are party to the ICSID Convention. However, even with the lifting of the stay of enforcement, the Company recognizes that the collection of the award may present significant practical challenges. Because the award has yet to be satisfied and the annulment proceeding is pending, the Company is unable at this stage to reasonably predict the efforts that will be necessary to successfully enforce collection of the award, the amount of the award or the timing of any such collection efforts. Therefore, the Company has not recognized this award in its financial statements.

A separate arbitration is pending with ICSID to obtain compensation primarily for third-party minority shareholders' lost interests in the two expropriated plants.

The loss from discontinued operations of \$6 million and \$3 million for the nine months ended September 30, 2016 and 2015, respectively, is related to ongoing costs related to the Venezuela expropriation.

### **Vitro Acquisition**

On September 1, 2015, the Company completed the Vitro Acquisition in a cash transaction valued at approximately \$2.297 billion, subject to a working capital adjustment and certain other adjustments. The Vitro Business in Mexico is the largest supplier of glass containers in that country, manufacturing glass containers across multiple end uses, including food, soft drinks, beer, wine and spirits. The Vitro Acquisition included five food and beverage glass container plants in Mexico, a plant in Bolivia and a North American distribution business, and provided the Company with a competitive position in the glass packaging market in Mexico. The results of the Vitro Business have been included in the Company's consolidated financial statements since September 1, 2015. Vitro's food and beverage glass container operations in Mexico and Bolivia are included in the Latin American operating segment while its distribution business is included in the North American operating segment.

The Company financed the Vitro Acquisition with the proceeds from senior notes offerings, cash on hand and the incremental term loan facilities (see Note 8 to the Condensed Consolidated Financial Statements).

### **Capital Resources and Liquidity**

As of September 30, 2016, the Company had cash and total debt of \$294 million and \$5.6 billion, respectively, compared to \$270 million and \$5.9 billion, respectively, as of September 30, 2015. A significant portion of the cash was held in mature, liquid markets where the Company has operations, such as the U.S., Europe and Australia, and is readily available to fund global liquidity requirements. The amount of cash held in non-U.S. locations as of September 30, 2016 was \$279 million.

#### **Current and Long-Term Debt**

On April 22, 2015, certain of the Company's subsidiaries entered into a Senior Secured Credit Facility (the "Agreement"), which amended and restated the previous credit agreement (the "Previous Agreement"). The proceeds from the Agreement were used to repay all outstanding amounts under the Previous Agreement and the 7.375% senior notes due 2016.

In connection with the closing of the Vitro Acquisition on September 1, 2015 (see Note 15 to the Condensed Consolidated Financial Statements), the Company entered into Amendment No. 2 ("Amendment No. 2") to the Agreement, which provided for additional incremental availability under the incremental dollar cap in the Agreement of up to \$1,250 million. In addition, in connection with the closing of the Vitro Acquisition, on September 1, 2015, the Company entered into the First Incremental Amendment to the Agreement (the "Incremental Amendment") pursuant to which the Company incurred \$1,250 million of senior secured incremental term loan facilities, comprised of (i) a \$675 million term loan A facility (the "incremental term loan A facility") on substantially the same terms and conditions (including as to maturity) as the term loan A facility in the Agreement and (ii) a \$575 million term loan B facility (the "incremental term loan B facility") maturing seven years after the closing of the Vitro Acquisition using its incremental capacity under the Agreement.

On February 3, 2016, the Company entered into Amendment No. 4 ("Amendment No. 4") to the Agreement which provided for an increase in the maximum Total Leverage Ratio (which is calculated by dividing consolidated total debt, less cash and cash equivalents, by consolidated EBITDA, as defined in the Agreement) for purposes of the financial covenant in the Agreement to 5.0x for the fiscal quarters ending March 31, 2016, June 30, 2016 and September 30, 2016, 4.5x for the fiscal quarters ending December 31, 2016, March 31, 2017, June 30, 2017 and September 30, 2017, and stepping down to 4.0x for the fiscal quarter ending December 31, 2017 and each fiscal quarter thereafter.

At September 30, 2016, the Agreement, as amended through Amendment No. 4 (the "Amended Agreement"), includes a \$300 million revolving credit facility, a \$600 million multicurrency revolving credit facility, a \$1,575 million term loan A facility (\$1,516 million net of debt issuance costs), and a €279 million term loan A facility (\$303 million net of debt issuance costs), each of which has a final maturity date of April 22, 2020. The Amended Agreement also includes a \$575 million term loan B facility (\$558 million net of debt issuance costs) with a final maturity date of

September 1, 2022. At September 30, 2016, the Company had unused credit of \$880 million available under the Amended Agreement. The weighted average interest rate on borrowings outstanding under the Amended Agreement at September 30, 2016 was 2.57%.

The Amended Agreement contains various covenants that restrict, among other things and subject to certain exceptions, the ability of the Company to incur certain liens, make certain investments, become liable under contingent obligations in certain defined instances only, make restricted payments, make certain asset sales within guidelines and limits, engage in certain affiliate transactions, participate in sale and leaseback financing arrangements, alter its fundamental business, and amend certain subordinated debt obligations.

The Amended Agreement also contains one financial maintenance covenant, a Total Leverage Ratio, that requires the Company as of the last day of a fiscal quarter not to exceed the maximum levels set forth in Amendment No. 4 (as more particularly described above). The Total Leverage Ratio could restrict the ability of the Company to undertake additional financing or acquisitions to the extent that such financing or acquisitions would cause the Total Leverage Ratio to exceed the specified maximum.

Failure to comply with these covenants and restrictions could result in an event of default under the Amended Agreement. In such an event, the Company could not request borrowings under the revolving facility, and all amounts outstanding under the Amended Agreement, together with accrued interest, could then be declared immediately due and payable. If an event of default occurs under the Amended Agreement and the lenders cause all of the outstanding debt obligations under the Amended Agreement to become due and payable, this would result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. As of September 30, 2016, the Company was in compliance with all covenants and restrictions in the Amended Agreement. In addition, the Company believes that it will remain in compliance and that its ability to borrow funds under the Amended Agreement will not be adversely affected by the covenants and restrictions.

The interest rates on borrowings under the Amended Agreement are, at the Company's option, the Base Rate or the Eurocurrency Rate, as defined in the Amended Agreement, plus an applicable margin. The applicable margin for the term loan A facility and the revolving credit facility is linked to the Company's Total Leverage Ratio and ranges from 1.25% to 1.75% for Eurocurrency Rate loans and from 0.25% to 0.75% for Base Rate loans. In addition, a facility fee is payable on the revolving credit facility commitments ranging from 0.20% to 0.30% per annum linked to the Total Leverage Ratio. The applicable margin for the term loan B facility is 2.75% for Eurocurrency Rate loans and 1.75% for Base Rate loans. The incremental term loan B facility is subject to a LIBOR floor of 0.75%.

Borrowings under the Amended Agreement are secured by substantially all of the assets, excluding real estate and certain other excluded assets, of certain of the Company's domestic subsidiaries and certain foreign subsidiaries. Borrowings are also secured by a pledge of intercompany debt and equity investments in certain of the Company's domestic subsidiaries and, in the case of foreign borrowings, of stock of certain foreign subsidiaries. All borrowings under the Amended Agreement are guaranteed by certain domestic subsidiaries of the Company for the term of the Amended Agreement.

Also, in connection with the Vitro Acquisition, during August 2015, the Company issued senior notes with a face value of \$700 million that bear interest at 5.875% and are due August 15, 2023 (the "Senior Notes due 2023") and senior notes with a face value of \$300 million that bear interest at 6.375% and are due August 15, 2025 (together with the Senior Notes due 2023, the "2015 Senior Notes"). The 2015 Senior Notes were issued via a private placement and are guaranteed by certain of the Company's domestic subsidiaries. The net proceeds from the 2015 Senior Notes, after deducting the debt discount and debt issuance costs, totaled approximately \$972 million and were used to finance, in part, the Vitro Acquisition.

The Company has a €185 million European accounts receivable securitization program, which extends through March 2019, subject to periodic renewal of backup credit lines.

Information related to the Company's accounts receivable securitization program is as follows:

	September 30, 2016	December 31, 2015	September 30, 2015
Balance (included in short-term loans)	\$ 158	\$ 158	\$ 173
Weighted average interest rate	0.67 %	1.21 %	1.11 %

## Cash Flows

Cash flows for the nine months ended September 30, 2016 and 2015 are as follows (dollars in millions):

	2016	2015
Cash provided by continuing operating activities	\$ 226	\$ 106
Cash utilized in investing activities	\$ (282)	\$ (2,638)
Cash provided by (utilized in) financing activities	\$ (39)	\$ 2,322

Free cash flow for the nine months ended September 30, 2016 and 2015 is calculated as follows (dollars in millions):

	2016	2015
Cash provided by continuing operating activities	\$ 226	\$ 106
Additions to property, plant and equipment	(310)	(299)
Free cash flow	\$ (84)	\$ (193)

Free cash flow was \$(84) million for the first nine months of 2016 compared to \$(193) million for the first nine months of 2015. The Company defines free cash flow as cash provided by (utilized in) continuing operating activities less additions to property, plant and equipment from continuing operations. Free cash flow does not conform to U.S. GAAP and should not be construed as an alternative to the cash flow measures reported in accordance with U.S. GAAP. The Company uses free cash flow for internal reporting, forecasting and budgeting and believes this information allows the board of directors, management, investors and analysts to better understand the Company's financial performance.

Operating activities: Cash provided by continuing operating activities was \$226 million for the nine months ended September 30, 2016, compared with \$106 million for the same period in 2015. Higher net earnings was the primary driver for the improvement in cash provided by continuing operating activities in the first nine months of 2016. Working capital, which was a use of cash of \$320 million and \$326 million in the first nine months of 2016 and 2015, respectively, reflected the normal seasonality of the business. Working capital for the nine months ended September 30, 2016, includes \$127 million received as a refund on value added taxes previously paid by the Company in conjunction with the Vitro Acquisition.

Investing activities: Cash utilized in investing activities was \$282 million for the nine months ended September 30, 2016, compared to \$2,638 million for the nine months ended September 30, 2015. Capital spending for property, plant and equipment was \$310 million during the first nine months of 2016 and \$299 million in the same period in 2015. Cash utilized for acquisition activities in the nine months ended September 30, 2016 was \$45 million and primarily related to additional contributions made to the Company's investment in a joint venture in Nava, Mexico. Cash utilized for acquisition activities in the nine months ended September 30, 2015 was \$2,342 million and primarily related to the Vitro Acquisition. During the first nine months of 2016, the Company received \$57 million in net proceeds on the disposal of assets, which were primarily related to cash received from the Chinese government as partial compensation to sell land use rights and related properties.

Financing activities: Cash utilized in financing activities was \$39 million for the nine months ended September 30, 2016, compared to cash provided by financing activities of \$2,322 million for the same period in 2015. The decrease in cash provided by financing activities was primarily due to lower net borrowings in 2016, partially offset by the Company not repurchasing any shares of its common stock in the first nine months of 2016 compared to \$100 million of repurchases in the same period in 2015 and lower finance fee payments in 2016.

The Company anticipates that cash flows from its operations and from utilization of credit available under the Agreement will be sufficient to fund its operating and seasonal working capital needs, debt service and other obligations on a short-term (twelve-months) and long-term basis. Based on the Company's expectations regarding future payments for lawsuits and claims and also based on the Company's expected operating cash flow, the Company believes that the payment of any deferred amounts of previously settled or otherwise determined lawsuits and claims, and the resolution of presently pending and anticipated future lawsuits and claims associated with asbestos, will not have a material adverse effect upon the Company's liquidity on a short-term or long-term basis.

## Critical Accounting Estimates

The Company's analysis and discussion of its financial condition and results of operations are based upon its consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. The Company evaluates these estimates and assumptions on an ongoing basis. Estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances at the time the financial statements are issued. The results of these estimates may form the basis of the carrying value of certain assets and liabilities and may not be readily apparent from other sources. Actual results, under conditions and circumstances different from those assumed, may differ from estimates.

The impact of, and any associated risks related to, estimates and assumptions are discussed within Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as in the Notes to the Condensed Consolidated Financial Statements, if applicable, where estimates and assumptions affect the Company's reported and expected financial results.

There have been no other material changes in critical accounting estimates at September 30, 2016 from those described in the Company's Amendment No. 1 to the Annual Report on Form 10-K/A for the year ended December 31, 2015.

## Forward-Looking Statements

This document contains "forward-looking" statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and Section 27A of the Securities Act of 1933. Forward-looking statements reflect the Company's current expectations and projections about future events at the time, and thus involve uncertainty and risk. The words "believe," "expect," "anticipate," "will," "could," "would," "should," "may," "plan," "estimate," "intend," "predict," "potential," "continue," and the negatives of these words and other similar expressions generally identify forward-looking statements. It is possible the Company's future financial performance may differ from expectations due to a variety of factors including, but not limited to the following: (1) the Company's ability to integrate the Vitro Business in a timely and cost effective manner, to maintain on existing terms the permits, licenses and other approvals required for the Vitro Business to operate as currently operated, and to realize the expected synergies from the Vitro Acquisition, (2) risks related to the impact of integration of the Vitro Acquisition on earnings and cash flow, (3) risks associated with the significant transaction costs and additional indebtedness that the Company incurred in financing the Vitro Acquisition, (4) the Company's ability to realize expected growth opportunities and cost savings from the Vitro Acquisition, (5) foreign currency fluctuations relative to the U.S. dollar, specifically the Euro, Brazilian real, Mexican peso, Colombian peso and Australian dollar, (6) changes in capital availability or cost, including interest rate fluctuations and the ability of the Company to refinance debt at favorable terms, (7) the general political, economic and competitive conditions in markets and countries where the Company has operations, including uncertainties related to economic and social conditions, disruptions in capital markets, disruptions in the supply chain, competitive pricing pressures, inflation or deflation, and changes in tax rates and laws, (8) impacts from the United Kingdom's referendum of withdrawal from the European Union on foreign currency exchange rates and the Company's business, (9) consumer preferences for alternative forms of packaging, (10) cost and availability of raw materials, labor, energy and transportation, (11) the Company's ability to manage its cost structure, including its success in implementing restructuring plans and achieving cost savings, (12) consolidation among competitors and customers, (13) the Company's ability to acquire businesses and expand plants, integrate operations of acquired businesses and achieve expected synergies, (14) unanticipated expenditures with respect to environmental, safety and health laws, (15) the Company's ability to further develop its sales, marketing and product development capabilities, (16) the timing and occurrence of events which are beyond the control of the Company, including any expropriation of the Company's operations, floods and other natural disasters, events related to asbestos-related claims, (17) the Company's ability to accurately estimate its total asbestos-related liability, and (18) the Company's ability to successfully remediate the material weakness in its internal control over financial reporting, and the other risk factors discussed in the Company's Amendment No. 1 to the Annual Report on Form 10-K/A for the year ended December 31, 2015 and any subsequently filed Quarterly Report on Form 10-Q. It is not possible to foresee or identify all such factors. Any forward-looking statements in this document are based on certain assumptions and analyses made by the Company in light of its experience and perception of historical trends, current

conditions, expected future developments, and other factors it believes are appropriate in the circumstances. Forward-looking statements are not a guarantee of future performance and actual results or developments may differ materially from expectations. While the Company continually reviews trends and uncertainties affecting the Company's results of operations and financial condition, the Company does not assume any obligation to update or supplement any particular forward-looking statements contained in this document.

### **Item 3. Quantitative and Qualitative Disclosure About Market Risk.**

There have been no material changes in market risk at September 30, 2016 from those described in the Company's Amendment No. 1 to the Annual Report on Form 10-K/A for the year ended December 31, 2015.

### **Item 4. Controls and Procedures.**

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, the Company has investments in certain unconsolidated entities. As the Company does not control or manage these entities, its disclosure controls and procedures with respect to such entities are necessarily substantially more limited than those maintained with respect to its consolidated subsidiaries.

The Company's Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of its disclosure controls and procedures (as defined in Sections 13a-15(e) and 15d-15(e) Exchange Act as of September 30, 2016.

As a result of the material weakness described below, management has concluded that its disclosure controls and procedures were not effective as of September 30, 2016.

Notwithstanding the material weakness, the Chief Executive Officer and Chief Financial Officer concluded that the unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q present fairly, in all material respects, the Company's financial position, results of operations and cash flows for the periods presented in conformity with generally accepted accounting principles in the United States.

#### **Changes in Internal Control Over Financial Reporting**

As described in the Company's Amendment No. 1 to the Annual Report on Form 10-K/A for the year ended December 31, 2015, management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2015, and concluded that the matter described below was a material weakness in the Company's internal control over financial reporting and that the Company did not maintain effective internal control over financial reporting as of December 31, 2015.

*Determination of asbestos-related liabilities* - The Company identified a deficiency in the design of its control activities for the estimation of liabilities related to probable losses for unasserted asbestos claims. The Company did not have sufficient controls in place to provide reasonable assurance that a material error would be prevented or detected related to the application of ASC 450 to the estimation of probable losses from unasserted asbestos claims.

*Planned remediation of material weakness* - The Company is responsible for implementing changes and improvements to internal control over financial reporting to remediate the control deficiency described above.

To remediate the material weakness described above, the Company is in the process of establishing policies and procedures for the review, approval and application of generally accepted accounting principles to, and disclosure with respect to, unasserted asbestos claims. In particular, the Company intends to complement its revised method of determining its asbestos-related liability (see Note 9 to the Condensed Consolidated Financial Statements) with appropriate analytical and review controls to ensure that the Company's liability and related disclosures comply with generally accepted accounting principles.

As the Company continues to evaluate and improve the effectiveness of internal control over financial reporting, the Company may determine to take additional measures to address its material weakness or determine to modify the remediation efforts described above. Until the remediation efforts discussed above, including any additional remediation efforts that the Company identifies as necessary, are implemented, tested and deemed to be operating effectively, the material weakness described above will continue to exist. The Company currently expects that these activities will be completed as part of its annual comprehensive legal review of asbestos-related liabilities and costs (as described in Note 9 to the Condensed Consolidated Financial Statements) to be completed in the fourth quarter 2016.

Other than the matter described above, there were no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Item 1. Legal Proceedings.**

For further information on legal proceedings, see Note 9 to the Condensed Consolidated Financial Statements, “Contingencies,” that is included in Part I of this Quarterly Report and incorporated herein by reference.

**Item 1A. Risk Factors.**

There have been no material changes in risk factors at September 30, 2016 from those described in the Company’s Amendment No. 1 to the Annual Report on Form 10-K/A for the year ended December 31, 2015.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

The Company did not purchase any shares of its common stock for the three months ended September 30, 2016. The Company has \$380 million remaining for repurchases pursuant to authorization by its Board of Directors in October 2014 to purchase up to \$500 million of the Company’s common stock until December 31, 2017.

**Item 6. Exhibits.**

## CERTIFICATIONS

I, Andres A. Lopez, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Owens-Illinois, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

## CERTIFICATIONS

I, Jan A. Bertsch, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Owens-Illinois, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
